## ADDRESS OF SPEAKER.

Upon assuming his duties the Speaker addressed the Assembly as follows:

*My Fellow-Members:* In entering upon the discharge of the duties of this high office I do so with a full knowledge and appreciation of its responsibilities, and a desire to preside with that fairness and impartiality which should actuate the presiding officer over legislative bodies. In this spirit I ask both your indulgence and cooperation to the end that our labors and efforts may redound to the credit and benefit of the State.

Many new and complex problems will be submitted to you. In considering them, do so in a spirit of fairness and justice that will leave no room for criticism. Action should be taken only after careful and earnest deliberation. In changing old laws and the enactment of new ones conservatism should prevail. Efforts should be made to avoid both fads and isms. Theories should be disregarded for sound business principles.

The Republican party, the dominant one in this State, pledged its representatives in this body to carry out certain fixed policies enumerated in its platform. The people intrusted the government to the care of this party, and we should see that all of its pledges are redeemed—all of its promises fulfilled. Particularly important is that plank in the platform which pledges us to an economical administration of this legislative session. The constitutional amendment limiting the expenditure for employees and attaching to a fixed amount per day has imposed upon this body the duty of establishing a precedent. In appointing employees care must be taken that qualification and fitness for the positions they are appointed to fill should be the primary consideration, for unless we surround ourselves with intelligent and competent help we will be unable to transact the business coming before us, and by using judgment in the selection of these employees the work of the session can be materially expedited.

Do those things which you in your own mind believe to be right, and you will have done your full duty to the State. I want all to know and believe that your Speaker is also your friend, willing and anxious to assist you in every legitimate way, helping you, if I can, over the rough places and obstacles of legislation; ever endeavoring to enforce the rule of fair play, the principles of the square deal; anxious that no section should receive benefits at the expense of another, but that we all, regardless of party, should and will work together for our common weal, for our commonwealth. I trust and hope that the acquaintance which has begun will grow and ripen into enduring and lasting friendship.

On motion of Mr. Costar, the resolution was ordered printed in the Journal and made a special order for consideration immediately after the reading of the Journal on Wednesday, January 6, 1909.

## TO WAIT ON GOVERNOR.

MR. SPEAKER: Your committee appointed to wait upon the Governor to notify him that the Assembly had convened and were ready to receive any communication which he might desire to make to this House, beg leave to report as follows:

It has called upon the Hon James N. Gillett, Governor of the State of California, and has notified him that the Assembly had convened and organized and was awaiting any communication which he might desire to make to it, and the Governor in reply requested that your committee extend his compliments to the Assembly and to state that he will make his communication to the Assembly within the next few days

SCHMITT, Chairman.

## MESSAGE FROM THE GOVERNOR.

On motion of Mr. Mott the following message from the Governor was received and read, and ordered printed in the Journal:

## FIRST BIENNIAL MESSAGE OF GOVERNOR JAMES N. GILLETT.

EXECUTIVE DEPARTMENT, STATE OF CALIFORNIA,  
SACRAMENTO, JANUARY 4, 1909.

*To the Senate and Assembly of the State of California:*

The constitution provides that the Governor shall, by message, communicate to the legislature at every session thereof the condition of the State and recommend such matters as he shall deem expedient.

Our State is in a most flourishing condition. The financial stringency that prevailed a little over one year ago has passed away, and to-day we find our citizens busily engaged in all manner of enterprises. A bountiful harvest has added largely to our material wealth, our mines have yielded their usual amount of minerals, our commerce and trade have increased in volume, our cities have grown larger and many people have settled in our valleys and along our coast, and to-day a general air of prosperity pervades the entire State. All of our State institutions are doing well, and only harmony prevails among them. The damages sustained by some, by reason of the earthquake, are being repaired.

Financially the State has never been in better condition. At the end of the fiscal year June 30, 1908, there was a balance in the treasury of \$7,305,045 96. Of this amount there was, on September 28th, loaned out to the various banks of this State, as authorized by an act of the last legislature, the sum of \$4,257,350, for which a yearly interest of about \$85,000 is being paid.

## STATE HOSPITALS.

The State Hospital at Agnews was entirely destroyed, and there is now being constructed at that place one of the finest and best equipped institutions of its kind which can be found anywhere. At other institutions for the insane fine cottages are being built which will add to their convenience and will be of great advantage in the care and proper treatment of acute cases.

The State Hospitals on June 30, 1908, had 6,555 patients, an increase of 565 in the two years since the last report was issued. This is an average increase each year for the last two years of 282 patients. It will be found that the largest proportion of the increase, 333, was made in the year ending June 30, 1908. The average annual

increase of the hospital population in the five years ending June 30, 1908, has been 155. For the five years ending June 30, 1903, the average annual increase was 118. The new patients received at the hospital for the two years ending June 30, 1908, numbered 3,019, the largest number received in any two-year period since the opening of the hospitals.

The number of new cases admitted to the hospitals is of much more importance in indicating the prevalence of insanity in a State than the numbers resident in the hospitals. Comparing the admissions of the last two years with previous biennial periods the figures are as follows:

1902 to 1904, admissions.....	2,582
1904 to 1906, admissions.....	2,939
1906 to 1908, admissions.....	3,019

Taking the figures adopted by the State Board of Health, 2,001,193, as the population of the State, we had in the State Hospitals on June 30, 1908, one insane person to every 305 of the general population. This is a much better showing for the State than in 1902, when the proportion was one in every 281. Since 1900 our insane population in State Hospitals has increased 24 per cent, while our general population has increased 33 per cent.

The total cost for maintenance, salaries and wages for the two years ending June 30, 1908, the fifty-eighth and fifty-ninth, was for the fifty-eighth fiscal year \$885,023.09, for the fifty-ninth fiscal year \$952,184.03, or a total for the two years of \$1,837,208.02. This sum does not represent the entire amount used for maintenance. The contracts for supplies let in June, 1907, for the fifty-ninth fiscal year, showed an advance in the main supplies used in the hospitals in some cases of 50 per cent.

Flour advanced 19 per cent.

Beef advanced 13 per cent.

Fuel oil advanced 50 per cent.

The above articles are given only as indications and because they are very large items of expense. With few exceptions the expenses have advanced in every line. Such an advance in cost of supplies was unexpected, and though appropriations were liberal they have been obliged to call upon the contingent fund to help out their support.

The total expenditures of the hospitals from support, salaries, and contingent funds for the two years ending June 30, 1908, were as follows:

Fifty-eighth fiscal year .....	\$1,001,007 21
Fifty-ninth fiscal year .....	1,073,117 32

The average annual cost of one patient for the five hospitals, including all expenditures, excepting those made for permanent improvements, was \$178.

The total expenditures of the Home for Feeble-Minded Children for the two years were as follows:

Support and salaries, fifty-eighth fiscal year.....	\$116,766 56
Support and salaries, fifty-ninth fiscal year.....	137,895 18

At least three of our hospitals, Stockton, Napa, and Southern California, are obliged to care for more patients than they are able to accommodate properly. Additional buildings are imperatively needed at these hospitals. Agnews will be opened with a capacity of 900 on July 1, 1909.

#### SAN FRANCISCO HARBOR.

A large amount of work is being done on the water front in San Francisco in extending the seawall and in building new wharves and docks. The Harbor Commissioners of that port have managed its affairs exceedingly well, and to the entire satisfaction of the shipping and commercial interests of the State. They are making fine and lasting improvements, and are now constructing steel and concrete wharves and docks, which, when completed, will equal any that can be found in any seaport city in the world. The water front is now being conducted on strictly business principles and no favoritism is shown to shipper or contractor. The belt railroad skirting the water front north of Market street is meeting with splendid success in a financial way and in the moving of freight, and it should be extended south of Market street so as to connect with the railroads and places of business existing in the southern portion of the city. This administration feels justly proud of the splendid management of the water front of San Francisco during the last two years.

The Commissioners have established a free market north of Market street, and another one should be established south of it to accommodate that section of the city. Eventually these markets will be a great benefit to the farmers and orchardists who look to San Francisco for a market, and also to the citizens of San Francisco.

#### STATE PRINTING OFFICE.

There will soon have to be built a new printing office, as the present one is dangerous and not suitable for the purpose for which it is being used.

The printing office has always been a large expense to the State, and its printing, as a rule, has cost more than if it had been contracted for by private concerns. One reason has been that the office has not been properly equipped with up-to-date presses,

machinery, and appliances. If we are going to maintain such an office, and it seems the policy of our State to do so, then we should place in it the best equipment that can be secured.

Two years ago I complained to the State Printer about the excessive cost of printing, and he promised then to endeavor to secure better results, and I am pleased to note that he has. To show the great saving that can be made, if proper machinery and appliances are installed, I desire to call your attention to the difference in the cost per page in printing the Secretary of State's report for the year 1906, compared with the present year, 1908. In 1906 it cost \$9.06 per page, and in 1908 \$4.50 per page. The reason for this great reduction is that the entire report this year was set on Mergenthaler machines, whereas in 1906 the work was done by hand.

Another splendid reason why the printing office should have the best of equipment is shown by the remarkable increase in the assets of the School Book Fund. On January 5, 1903, the assets of this fund amounted to \$137,671, and on June 30, 1908, it amounted to \$360,957, an increase in five and one half years of \$223,286, all of which has been largely brought about by the use of labor saving machinery installed during Mr. Shannon's first term.

The Superintendent of State Printing proposes to ask you for an appropriation to purchase three Mergenthaler machines, a gathering machine, a casing-in machine, two Miehle presses, a cloth-cutting machine, and several other machines that are necessary, and all of which I approve, if we are to continue the printing office any longer. There is no use making the State Printing Office the storehouse of old junk and out-of-date machinery. If it is to be run at all it should have the best and latest machinery. Then the one in charge can give no excuse for excessive cost of printing.

#### STATE PRISONS

Our State Prisons are being carefully and economically managed, and the very best of order and discipline exist in both. The building for the criminal insane now under course of construction at Folsom will soon be completed and ready for occupancy. The prison wall around Folsom, which was very much needed, is satisfactorily progressing.

Plans have been adopted for a new prison building at San Quentin and the same is now being constructed. When this building is completed the congested condition existing there will be relieved, and we will have a very much needed up-to-date prison.

At the close of the fifty-eighth fiscal year there were 1,549 prisoners at San Quentin, and at the close of the last fiscal year the number had increased to 1,702, a gain of 153.

The Board of Prison Directors, in their biennial report to me, make a statement concerning the sale of jute grain bags, which is as follows: "We regret to report that the sale of grain bags during the past year has been much below the usual number, and, as a consequence, we have had to carry over from last year an excess of more than 2,000,000 bags. The reason we have been unable to dispose of this useful product of the jute mill has not been due to the fact that the price was excessive, but may be ascribed to the fact that the last legislature passed a law limiting our action and placing so many restrictions on the sales of bags that it is almost impossible to dispose of them. We believe the law defeats its own purpose. We believe that this law should be repealed and that the matter of the sale of the jute mill product at San Quentin should be entrusted to this board, giving them power to make rules and regulations for the sale of grain bags, subject to the approval of an advisory board consisting of the Governor, the Secretary of State, and the Attorney General." If the law passed by the last legislature has had the effect of preventing the sales of grain bags because of its provisions, then I recommend that the question of amending the bill as suggested by the Board of Prison Directors be considered.

At the commencement of my term of office I found many applications for clemency not acted upon by preceding Governors. In addition, there have been several hundred new applications made. To properly pass upon these, so that justice might be done, would occupy the entire time of the Executive to the exclusion of all other business. As a consequence, many cases fail to receive the attention they deserve, and some mistakes are necessarily made.

Our credit system furnishes a constant incentive to good conduct on the part of a prisoner. It may be accepted as a fact that a convict while under restraint, freed from the ordinary temptations of life, closely conforms to the prison rules. His daily gain of credits, his hope of parole and ultimate pardon, all tend to restrain him from wrongful acts.

Our present prison management, conducted along humane lines, working solely toward the material and moral welfare of those in their charge, has given this office extreme gratification. We must also attempt to devise a system which will tend to aid and assist a discharged prisoner to gain and retain the respect of his fellowmen.

The ordinary prisoner, upon release, is given clothing, five dollars, and a ticket to the place from whence he came. He may leave the prison with the best intentions, fully determined to redeem his past and regain his former standing among men. It is a matter of common knowledge, how society lines up against him, how he is hounded from pillar to post, branded as an outcast, until finally, losing all hope, he is driven back to crime and prison.

The parole system overcomes much of this. The prisoner goes directly from the prison to employment. He must refrain from entering saloons, or drinking liquor, must avoid evil companions and be frugal and saving. The good results of this system have been manifest. One paroled prisoner whom I pardoned had accumulated \$3,500 worth of property; another, now on parole, I understand has \$4,500 deposited in a bank. The combined bank deposits of all paroled prisoners aggregate \$39,776 03, a most creditable showing, in view of the fact that few have been on parole more than two years and many but a few months. At the same time, their conduct has been such that infractions of the rules have been reduced to the minimum. Less than 10 per cent have violated their parole since the adoption of this system, while 90 per cent have made good, and are now conducting themselves as honest, upright, and industrious men.

So striking were the results attained by this system, that I adopted the rule, as an additional incentive, that all paroled prisoners who conducted themselves as honest and upright men for a period of not less than two years, should receive a pardon after recommendation therefor by the Board of Prison Directors.

At the same time I adopted the further rule that no person eligible to parole, other than one establishing his innocence of crime, should be pardoned until he had first applied for and received a parole. The advantages of this rule are manifest. It places pardons under the merit system, removing all question of undue influence or improper motives. A prisoner receives his parole solely because his prison life has been such as to justify the prison board and prison officers in believing his conduct outside the prison walls will be commendable, and that he will make good in every respect. He receives his pardon because he has shown that their confidence was not misplaced. Both parole and pardon are based upon previous good conduct and nothing else.

Under our laws, the only prisoners eligible to parole are first termers. A second termers can not be paroled. This should be remedied. Equal privileges should be extended to all classes of prisoners, leaving to the Prison Board the determination of the suitability of the particular individual to receive parole. There is no reason to believe that this Board will abuse any discretion reposed in it, and there is much reason to expect good results from the release of many second termers under the wise provisions of the parole laws and regulations.

Prisoners confined in county jails and city prisons can only be released after sentence, by pardon or commutation at the hands of the Governor. Many of these cases are meritorious, but the method of procedure is entirely too cumbersome, and the results in many cases unsatisfactory. Even when properly presented, the Executive is placed at a great disadvantage in giving a correct judgment. Some simpler means for obtaining a release, beneficial alike to the prisoner and to the people, should be provided. I would suggest that laws be passed vesting in county boards of supervisors and municipal legislative officers the power, under appropriate regulations and conditions, to parole prisoners confined in county jails or city prisons.

#### STATE ENGINEERING DEPARTMENT.

At the last regular session of the legislature an act was passed consolidating the Department of Highways and the Board of Public Works under the name of Department of Engineering. In addition to the duties devolving upon these former commissions there was delegated to said Department the duty of providing plans and specifications for and supervising all State work of every kind and character. As State Engineer, I appointed Nathaniel Ellery, former Commissioner of Highways. He immediately proceeded to organize the different departments under one general head. On account of inadequate office accommodations, the vast amount of new work due to the earthquake, the many new buildings provided for by law, and the necessity of carrying on work already undertaken by the former commission, his task has been herculean. At the present time, however, much of the work has been completed, and with one or two exceptions the balance is under construction.

A fair idea of the enormous amount of work devolving upon this Department may be had by the statement that plans and specifications, with full detailed drawings, have been prepared for fifty-nine buildings at an estimated cost of construction of \$2,769,782. In addition thereto, many other public works have been undertaken by this Department, notably the dams at Napa and the Veterans' Home, a water tank at Mendocino, a steel smoke stack and oil tanks at Agnews, and alterations in the San Francisco Ferry Building, besides all river and road work provided for by past legislatures.

In preparing plans and specifications the Department has exercised extreme care, and made the same most complete. Detail drawings, which are usually omitted by architects, have been prepared in every instance.

As an illustration of the thoroughness of this feature, I may say that upon the contract work at Agnews, amounting to over \$500,000, the extra work will be considerably less than \$1,000. This matter of extra work has been a source of great expense to the State and much criticism by the public. It is the means ordinarily resorted to by the contractor to mulct the State upon public work, and I am happy to say that under this Department it has been practically eliminated. Detail drawings are usually prepared by the contractor and the cost of such preparation is figured as a part of the contract price. The completeness of the plans furnished by this Department is

shown by the fact that where similar work has been done for the State and twelve sheets of drawings have been furnished, this Department has supplied twenty-five. The drawings at the State Normal School at San Jose alone covered 129 sheets. This has enabled contractors, to estimate more closely the probable cost of buildings and has resulted in enormous saving to the State. Although the plans and specifications have been most elaborate and thorough, yet the cost has been kept well within the ordinary charges of architects. Upon new work the private architects' fees are 5 per cent, and would have been \$138,489 for the new buildings planned for the State. The expenses for architectural services under the Department of Engineering upon the above buildings have been \$71,307, with a resultant saving to the State of \$67,182.

In addition thereto, through the purchase of cement, there has been a further saving of \$83,000, basing the ordinary price of cement at \$2.10 a barrel in car load lots. These two items alone have justified the creation of this Department.

River and road work has been forwarded with like economy. The Kripp break, 1,600 feet long, was closed for \$8,448; Brannon Island break, 3,000 feet, for \$22,081. Only one half of the cost of each was paid by the State.

In dredging it is possible to compare the work with that done in the past by the State and United States. The cost of dredging under the Engineering Department in San Rafael Creek was .0589 cents a cubic yard, at Yuba cut-off it is .0785. The State paid, in years past, 12½ cents on the San Joaquin cut-off and 15 cents a yard at Snaggy Bend. Under the government of the United States, the cost of dredging in the Mormon Channel was 14 cents a cubic yard.

All our State roads are being constructed in mountainous regions, where, from necessity, the season for work is short. Progress, however, has been as rapid as could be expected. Upon the Kings River road an experiment in construction has been made by the purchase of a steam shovel. This seems destined to work a revolution in road work. Although only in use one month, the saving in labor has been approximately 40 per cent under hand labor. With the steam shovel the road is materially straightened. Points in the road are cut through, instead of going around, and fills are made with the material excavated. The labor cost per mile with the shovel was \$1,330, as compared with \$2,330 by hand.

The report of the State Engineer has recommended some changes in the law relating to his Department. These are all worthy of consideration.

I would recommend that the Department have full and absolute control of all work done by day labor, and particularly the purchasing of supplies therefor. Day labor is only resorted to when, in the opinion of the State Engineer, the contract price is too high. If he undertakes to do the work for less than the lowest bidder, he should be placed in a position where he can take advantage of all matters affecting the cost of the work. Under the present law, the purchase of materials, is done by the particular institution having the work performed. Their buyer is generally unfamiliar with prices of construction materials, and may seriously handicap the Department in economical results.

The Engineer has also recommended further additions to the statutory employees. These men are now employed, but are paid by the institutions requiring the work, in proportion to the time devoted to the particular service. It has been found, however, that work is required in many instances where no appropriation has been made. In such cases there is no way to pay for such services. The Engineering Department is compelled to pay for the same from their contingent fund or refuse to do the work. This has resulted in a depletion of the contingent fund. As these men must be retained, their employment should be of a character which will permit the State to secure full measure and the best results from such service.

Another matter that has prevented the Department from securing the best results has arisen from the present method of paying employees other than those mentioned by statute. At present their claims are prepared by the Department and forwarded to the institution for which the work is being done. At a subsequent meeting of the managers or trustees such claims are allowed. This all requires time, and where work is only partially completed these delays sometimes cover months. All this is most unsatisfactory. It can be obviated by creating a revolving fund of \$10,000 for the payment of employees at stated intervals, such fund to be replenished by the payment of the amounts due for labor upon public work into the State treasury to the credit of this fund by the institution owing the same.

#### RAILROADS.

Our State has not kept pace with the majority of the states of the Union in the enactment of laws regulating railroads and their business as common carriers.

Section 21, Article XII of the constitution, provides that "no discrimination in charges or facilities for transportation shall be made by any railroad or other transportation company between places or persons, or in the facilities for the transportation of the same classes of freight or passengers within this State, or coming from or going into any other State."

That this provision of the constitution might be properly enforced the framers of it, by Section 22 of the same article, created a Board of Railroad Commissioners and vested it with certain powers. This section provides that "said commissioners shall have the power, and it shall be their duty to establish rates of charges for the trans-

portation of passengers and freight by railroad or other transportation companies, and publish the same from time to time with such changes as they may make. \* \* \* Any railroad corporation or transportation company which shall fail or refuse to conform to such rates as shall be established by such commissioners, or shall charge rates in excess thereof, shall be fined," etc.

The foregoing provisions of the constitution are very broad, and if properly enforced would settle most of the complaints now existing and being made against railroads and transportation companies doing business in this State. If our present laws do not meet the conditions existing, that is, if they are not broad and far-reaching enough to prevent rebates and discriminations, then under the constitution the legislature has the power to enact laws that will.

Section 24, Article XII, provides that "the legislature shall pass all laws necessary for the enforcement of the provisions of this article." Notwithstanding this mandate of the constitution, no act of the legislature has been passed since the adoption of the constitution, except one approved April 15, 1880, entitled "An act to organize and define the powers of the Board of Railroad Commissioners." This act is entirely insufficient. It does but little more than to organize the Board, fix the salaries of the members, and of the secretary, bailiff and stenographer, locating its office in San Francisco, and providing for its meetings. The other provisions of the act have proven to be inadequate to afford sufficient relief or grant an adequate remedy against rebating and discriminations in the past, which is claimed to have been carried on by common carriers in this State. The act should therefore be amended, or entirely repealed, and a new law passed to take its place, which will contain the necessary provisions to meet the requirements of the constitution, and put an effectual stop to rebating and discriminations that might hereafter occur. The acts constituting discriminations and rebates should be clearly defined and prohibited, and a penalty attached sufficient to prevent the same, such penalty to be applied alike to the company and to the shipper, for one who knowingly receives any advantages or favors which are not equally extended to other shippers, and which the law prohibits, should be held equally guilty with one who grants them. The violation of the law should be punished by fine or imprisonment, or by both. The law should be so drawn that an offense of rebating is committed when it appears that freight has been shipped at a cost less than the published rates. This is important because it may be impossible to secure any other evidence to show that a person has received favors which are denied to others, but if the offense has been committed when freight has been carried for a less rate than the published rate the proof can be easily secured. A schedule of rates to be charged by transportation companies should be posted in a conspicuous place in the office of the commissioners, where the public can have free access to it. The rates to be fixed should be fair, just and reasonable, affording a reasonable return to the companies for services rendered, and when so established should be strictly observed by the companies.

The question of transportation is a most important one in this State, and as our country develops, our population increases and our commerce expands, it will be one of the greatest problems our people will have to deal with. Our railroads are great factors in the development of the resources of our State. They bring communities together so they can quickly and cheaply do business with each other. They are common carriers whose duty it is to extend to one citizen the same advantages in shipping as are extended to others, and the public should at all times be in their confidence. But this cannot be if secret rebates are to be given to a favored few, nor if facilities in transportation are to be granted to one and withheld from another. A common carrier possessing certain franchises and privileges granted by the sovereign power of a State, which others do not enjoy, is a public servant whose duty it is to serve every member of the public alike, and no favors or advantages should be extended to one which others are not to receive, as this will give the favored one an undue advantage over his competitor in business which he ought not to enjoy. The question of passes or free transportation should be covered by proper restrictions along the lines followed by Congress in the recent amendments to the Interstate Commerce Act. During the last few years there has been an abundance of legislation passed in the different states and by the National Government regulating railroads and their charges, and from these many acts it will be an easy matter to formulate a bill which will accomplish everything sought for, and which will be fair and just to both the public and the transportation companies. Our State is very much in need of such legislation, and I trust the same may be enacted.

There should also be made a more liberal appropriation for the uses of the Commissioners than has been made in the past. There must not be a lack of funds if the Commissioners are expected to vigorously enforce the law. As to the amount required, the Commissioners and Attorney General can give the necessary information; but it should be sufficient to enable the officers of the law to properly enforce it. The penalties fixed for the violation of the law should be sufficiently large to insure its observance, and to justly punish those who break it.

#### GOOD ROADS

For some time there has been an agitation in this State in favor of good roads, and I believe that the sentiment of the people to-day strongly favors the construction of a system of State highways running through the center of the State and along the coast,

connecting all the counties and principal centers of population. There is no state in the Union that would derive a greater benefit from a system of good roads than California. We are engaged in raising products that require great care in transportation. Our fruit is easily injured, and to prevent bruising and great damage good smooth roads should be constructed over which to transport it to the markets of the State, or to the railroads for shipment. No state can be more favorably situated than ours for such a system, and no place offers greater advantages. Starting from the north a road can be built through the great Sacramento and San Joaquin valleys, connecting with San Francisco and also crossing the mountains to Los Angeles. From this city roads can be constructed to the east and south touching all important places, and down the coast to San Diego. Another road can start from Los Angeles and pass along the coast, traversing the Salinas and Santa Clara valleys and continuing north through the bay counties and along the northern coast to the Oregon line. Such a system of highways will reach the most important and most populous parts of the State. They will develop the country through which they pass and will offer a great inducement to settlers to locate along their route and build homes.

There is no way of estimating the great advantages of such a system, and the part it will play in the development of the rural portions of our State, and the increased wealth it will add to the sections through which it passes. The conditions for constructing and maintaining such highways are very favorable. The climate is all that can be desired, there is no frost and frozen earth to contend with, the soil is all that can be asked for, and there is an abundance of good rock and plenty of cheap oil to build the very best of roads. Such a system of roads would annually induce thousands of tourists to visit our State for the pleasures of automobilism. No country in the world offers such opportunities and advantages for this pleasure as our State does. There are no storms, no rough and unsettled weather, but from spring until late in the fall there is constant sun-shine and balmy air. The tourist can ride for miles through our orange groves, our vineyards, our orchard bearing fruit of every kind, through our beautiful valleys, along the coast and shores of the ocean, into our immense forests, and lastly to the Yosemite and across the mountains to Tahoe. Many, on such trips, would be impressed with the wonders and beauty of our State, and would invest here and make their homes among us, adding largely to our wealth and population. That such a system will be of great advantage to our State no one well can deny. If we wait for our counties to build a system of good roads many years must pass, and when completed the roads will not be uniform and many not go where they should, but might pass along some less desirable route, because some interested supervisor wanted them there. If the State undertakes to build the roads they will be completed within a reasonable time, constructed of good material, the work will be under the charge of skilled and experienced road builders, and will be laid out along the most favorable route without regard to individual interests. To build such a system of roads will require the expenditure of about \$18,000,000. This amount can be raised by a State bond issue, and it can be so arranged that the principal shall be paid by the State and the interest by the counties through which the highway passes, based upon the exact amount of money expended in that county for the construction of such highway. The supervision and maintenance of the roads, when completed, should always be under State control to insure necessary repairs and to maintain them in a proper and suitable condition. The question of bonding should be submitted to a vote of the people, and I recommend that legislation for that purpose be enacted. The State will never feel the burden of the bonds, and the wealth which such a system will directly add to our State will far exceed the amount invested, to say nothing of the great advantages such highways will be to our people. The necessary legislation to carry out the building of such a system will be submitted to you for your consideration and you will be asked to pass the same, thereby submitting the whole question to the voters of the State for their approval.

#### BANKS.

During the summer and fall of 1907 a money stringency existed all over the country and was also felt largely in foreign nations. It came at a time when the country was apparently in a most prosperous condition, when the people were well to do, when all lines of industry were active and large returns were being received from abundant crops of every character. Our State was affected equally with other places, and we found ourselves without sufficient funds to carry on our ordinary business and none at all for new enterprises. Our money was locked up in the East and Eastern bankers refused to return it to us. Several banking institutions of the State were forced to close their doors and their affairs are now in the hands of a receiver and are being settled for the benefit of the depositors. In order to protect our banks and prevent great financial distress among the people, it became necessary to declare a series of holidays, and finally to call an extra session of the legislature. At this session a joint committee, composed of members of the Senate and Assembly, was appointed to investigate the causes of this money stringency, and more particularly to examine the banking laws of the State and to propose such amendments thereto as might be necessary. This committee has held meetings in different parts of the State, and has been greatly aided in its work by the legislative committee of the California Bankers' Association. This joint committee will present to the legislature a draft of a bill to regulate the business of banking, which, if enacted into law, will cure many of the evils heretofore existing and will give to this State a code of banking laws unexcelled anywhere.

Our State has been very backward in the enactment of laws affecting banking, and it is very important that this business, which means so much to the welfare and prosperity of a community, and which controls and handles the money of the people, shall be so safeguarded and regulated by law that the depositor will be fully protected and the business and various enterprises of the State not injured by unnecessary bank failures.

Every commercial bank, individual banker, and every trust company doing a banking business should always have on hand, at all times, a sufficient reserve in money to secure its safety, and this reserve should be kept in the State and not sent abroad, as has too often been the case. The present law requires that every commercial bank shall have always on hand an amount equal to 15 per centum of its deposits, but there is no penalty provided for its failing so to do. This amount should be increased to at least 20 per cent, and a severe penalty imposed for a violation of the law. During the late financial stringency some of the banks of this State had on hand as low as 5 per cent of their deposits, and many had less than 15 per cent, as required by law—a most dangerous condition for any bank to be in, and one showing an utter disregard for the safe protection of its depositors.

I have inquired of many of the leading bankers of this State how large a percentage of the deposits should always be kept on hand to insure safe and conservative banking, and their answers range invariably from 20 to 30 per cent. This being so, it is quite evident that 15 per cent is entirely too small. It is true that the laws of New York fix the amount at 15 per cent, but the laws of the United States regulating National banks fix the sum at 25 per cent in some cities and 20 per cent in others. Twenty per cent is certainly small enough, and this gives to the banks 80 per cent of the people's money, together with their capital stock and surplus, to do business on, and this should be sufficient.

While we are enacting laws for the protection of the public, as well as for the security of the banks, we should do so along safe and conservative lines. As before stated, this reserve fund should be kept in this State and not deposited in Chicago, New York, or in some other city outside the State, because the banker depositing it there can realize a good rate of interest thereon. This money is for the protection of the depositors, and should be where it can be reached upon short notice. At least three fifths thereof should remain in the bank's vaults, and not more than two fifths deposited in other banks in this State, and only then in such banks approved by the Superintendent of Banks as a depository of lawful money reserve; and such bank should be required to have on hand at all times not less than 25 per cent of its deposits, exclusive of State, county, and municipal deposits.

One of the great evils in banking has been the loaning of the funds of the bank to its officers and employees. To this practice can be traced the cause of most bank failures. No money of a bank should be loaned to any of its salaried employees, and the making of such a loan should be penalized, and the directors who consented thereto or acquiesced therein should be held personally responsible therefor.

I do not believe that it would be good policy to enact a law absolutely prohibiting a bank from loaning money to any of its directors, because this would tend to keep our most progressive and best business men off the Board of Directors, and the business of banking would be injured thereby; but such restrictions should be placed around such a loan as will fully protect the bank from loss, and the amount which such an officer can borrow should be limited to a certain per cent of the bank's paid-up capital and surplus. If loans are to be made to the directors of a bank, or to a stockholder owning at least one third of the capital stock, then such a loan should be reported at once to the Superintendent of Banks, together with a list of the securities given by the borrower. If the Superintendent shall deem the securities insufficient, he may require other security to be given, and if this is not done he should have the power to require the loan to be called in at once and canceled. The Superintendent should also have the authority to require every officer and director of a bank borrowing money therefrom to submit to him a sworn statement of his assets and liabilities.

Some limitations should be placed upon the amount of money any person, company, corporation, association, or firm can borrow from a bank; otherwise a bank may have all its funds practically loaned to one concern, and if it becomes involved in losses or fails in business then the bank fails, too. No person or company should be permitted to borrow altogether more than 25 per cent of the capital stock of any bank actually paid in and surplus, and on all loans in excess of 10 per cent thereof security should be given worth at least 15 per cent more than the loan. If more than such an amount is loaned, or if it is loaned upon security less in value than the loan, then the directors who permitted it or acquiesced therein should be severally and jointly liable for any loss which the bank might suffer therefrom.

There are many important matters which are to be considered in drafting proper banking laws which can not be considered in this message, and I trust that you will give the questions your most serious consideration, and enact only those laws which will be fair to all interests and which will give the best protection possible to the depositor. Our State is badly in need of such legislation, and I shall expect good results from this session.

## STATE FARM AND SCHOOL FOR ORPHANS.

One of the most important and serious questions confronting our State is the care, education, and training of our orphan and dependent children. There are now in orphan asylums about five thousand children, and outside of asylums and supported by boards of supervisors about two thousand more. During the last four years the State has expended for the support of these children an average of \$432,792 per year. Under the law State aid ceases when the child reaches the age of fourteen, and the different institutions caring for them, no longer receiving this aid, naturally get rid of them as soon as possible. Some find homes with good families, while many are left to drift about, caring for themselves as best they can. None of them have the age or experience to look out for themselves properly, and they are easily led into ways of life that are bad for them, with the result that many of the girls find homes in Magdalen asylums, or worse places, while many of the boys are sent to reform schools or prisons, and once more become a public charge.

The State should do everything it can to help these unfortunate children and make of them good and useful citizens. When a boy or girl reaches fourteen years of age they ought not to be turned out into the world without friends, money, or advice, to commence the struggle of life alone, but should be placed in some institution where an education can be secured and a trade or some useful occupation learned.

In my judgment the State ought to purchase a tract of good farming and dairying land, build thereon homes and schools for these children, teach the boys trades and instruct them fully in agriculture, horticulture, and viticulture; instruct the girls in domestic science and fit them for useful lives. Our State offers splendid opportunities to those who desire to engage in agricultural pursuits, and no greater service can be rendered these children than to educate them to appreciate country life, and to induce them to settle in rural districts and help to develop the wonderful resources of our rich valleys. The girls, after a four years' course in domestic sciences, can find employment anywhere in good families, and with their training and experience will be well equipped to enter into the life of our State and perform their duties as servants or mothers. What we want is a high-class citizenship, and the foundation for this is a good education and the knowledge of some useful employment. As parents we are doing our duty toward our own children in fitting them for life, and as a great State we will not be doing our duty unless we give to our orphan children that fostering care and education which will fit them for the responsibilities of good citizenship.

A school of the kind referred to would have from five to seven hundred in attendance, and if properly managed and conducted and favorably situated upon good and fertile land would be self-supporting, or nearly so. But no matter what the cost might be, the good results that would flow therefrom would more than compensate this State for any sums of money expended in its support.

In carrying out such a plan I recommend that an appropriation of \$125,000 be made with which to purchase a site and to prepare plans for necessary buildings, and that a commission be appointed by the Governor to select the same and report thereon. After this has been done, the necessary steps can be taken to improve the place and carry out the proposed purposes, and when completed the State will have finished an institution which will be productive of better results than any institution we now have.

## IMPROVEMENT OF OUR NAVIGABLE STREAMS.

Ordinarily the improvement of a state's navigable bays and rivers is carried on by the Government, and this has been generally done in our State. But conditions may exist where it is for the best interests of the State to give assistance in this public work by offering to bear a portion of the expense. Such a condition now exists in our State with reference to the Sacramento and San Joaquin rivers. These two large streams form splendid waterways for the great valleys which they drain, and every year are growing in importance from a commercial standpoint. Much work is required to put them in a condition to properly carry the large tonnage which in a few years will be produced upon their very banks, and to so prepare them improvements should begin at once in deepening their channels, straightening their courses, and performing such other work as may be necessary to maintain and preserve such channels.

The improvement of these streams will encourage the reclamation of thousands of acres of fertile lands lying along their banks; and it may safely be said that by the time the rivers are dredged the adjoining lands will be reclaimed. This will add greatly to the wealth of our State, and will provide homes for thousands of families and wonderfully increase the population of these valleys. Nowhere can richer and more fertile soil be found than that lying along the Sacramento and San Joaquin rivers; a soil capable of producing all kinds of cereals, vegetables, and fruits in large abundance, and here some day will be the most populous and wealthiest sections of our State.

The Sacramento and San Joaquin rivers will be the great arteries that will carry the commerce of this most prosperous section to the sea, and some day their capacity will be taxed in so doing.

United States engineers have recommended that the improvement of these two rivers be carried on jointly with the State, and a bill is now pending in Congress appropriating the sum of \$400,000 to be available upon the State appropriating a like amount. Last winter I went before the River and Harbor Committee of the House

and urged the passage of this bill, and assured the members thereof that if this amount was appropriated the State of California would do its part. This would provide a fund of \$800,000 to commence the work, and further appropriations can be made from time to time until it has been entirely completed and the two rivers put in splendid shape for navigation.

I trust that we may not be disappointed in this great public improvement, and that everything may be done on the part of the State necessary to be done to accomplish the result desired. I know of nothing that can bring better returns to our State than the dredging of these rivers and the reclamation of the thousands of acres of fertile soil which must inevitably follow this work. The scheme will be too large for the State alone to handle or for private parties to undertake, but can be easily accomplished when the Federal Government, State, and private interests work together.

#### THE STATE BOARD OF EQUALIZATION.

This Board has compiled a very comprehensive and statistical report touching upon all matters falling under its jurisdiction. I particularly invite the attention of the legislature to that portion of the report on the subject of equalization of county assessments, beginning on page 12. There is no doubt a great disparity exists in the assessments as between the several counties. This is fundamentally wrong. Each county should contribute its just share of taxes for support of the State government, but to do this we must have equality and uniformity of assessment. I am aware, also, that this Board is seriously handicapped for funds with which to prosecute its work in collecting data in the several counties, and in proving the reports of railroad companies made to the Board. The Board should be authorized by law to employ experts for these purposes and to pay them a reasonable compensation for their services. I, therefore, recommend that the legislature make a reasonable appropriation for these purposes and place the same at the disposal of this Board.

#### REVISION OF REVENUE LAWS.

In my inaugural message I urged upon the legislature "the advisability of changing or amending our revenue laws and substituting a system which is more modern and which will meet the conditions of to-day." Pursuant to this suggestion the legislature submitted to the people an amendment to the constitution of the State designed to separate State from local taxation as to sources of revenue. This amendment was carefully prepared by the State Commission on Revenue and Taxation, and would, in my opinion, have been approved by the people had it been fully understood by them. It met with defeat by a narrow margin.

The large vote in favor of this amendment, taken together with the statements made in the public press and elsewhere by those opposed to certain features of the measure, shows conclusively that there is a widespread and intense desire to get away from the old and unequal system of taxation under which the people now suffer. Moreover, the essential feature of the amendment, namely, the selection of sources of revenue for the State, separate from those used by the local governments, appears to have met with almost universal approval. In fact, a very large and influential group of opponents objected to the amendment on the ground that it did not expressly provide for complete and permanent separation. It appears, therefore, that if an amendment to this end can be drafted which will eliminate some or all of those comparatively minor features contained in the old one, to which specific objections were raised, it will meet with the hearty approval of the people. While these objections may not be valid, they appear to be put forward in all sincerity, so that if they can be removed without sacrificing the main feature of the scheme, namely, separation, it may be wise to make such concessions.

The necessity for this reform remains just as strong as ever. The farmers, especially, in many parts of the State, and to a lesser extent the small real estate owners in the cities, are still heavily overtaxed. Many classes of corporations are very inadequately taxed, and there are glaring inequalities between different corporations in the same class. The counties and cities are still hampered in their efforts to improve their local or home finances by the necessity of always having to consider the danger lest they may have to pay too great a share of the State tax. The old system is still full of rank injustice, which no amount of zeal on the part of the assessing officials can remove because of the restrictions in the law. It is moreover capable of abuses for which no adequate remedy exists.

To be sure, much good has already resulted from the discussion of the evils in our present system of taxation and from the revelations of shocking inequalities therein as a result of the investigations made by the Commission on Revenue and Taxation. Thus, for example, the taxes paid by the steam railroads and the street railroads have been largely increased during the past two years by the efforts of the State Board of Equalization, and of the assessors, who have acted in accordance with the suggestions made by the Commission. The taxes on the property of these groups of corporations are now very nearly equal to, and in some cases, probably in excess of, those paid on real estate in general and on such classes of property as are fully taxed under the present system. It is estimated that this partial application of the ideas formulated by the Commission has added upwards of two million dollars annually to the aggregate revenues of the State, counties and cities from sources heretofore undertaxed.

But that these results will be permanent if the old system of taxation is continued is more than doubtful. Judged in the light of our past experience and by the experience of other states it will not be so. A relapse into the old state is to be expected as soon as the temporary stimulus is removed. The sporadic character of those improvements is itself a condemnation of the old system of taxation. What we need is a system of taxation simple, uniform, certain, and sure.

Furthermore, the improvement is not universal. It is limited to some conspicuous classes of corporations. Under the present system the banks are taxed unequally, one with another, and in many cases very inadequately. No remedy for this is possible without a constitutional amendment. It is equally impossible, under the present system, to impose adequate taxes upon express companies, car companies, telegraph and telephone companies, and the light, heat, and power companies. Nothing is clearer than that the business and property of these classes of corporations should be taxed as a unit. The attempt to assess such property piecemeal, where it may be found, scattered about in several counties, results in an assessment, as if it were mere old junk, of property which when used by a going concern has a far different value.

It is my conviction that the system of taxation embodied in the amendment voted upon by the people at the last election would have remedied these evils to a very large extent, and would have opened the way to still more effective reform in the future. This conviction is based upon the following facts:

*First*—Complete separation of State from local taxation would have been possible under this amendment, even the first year. That is to say, the sources of revenue set apart from the State would have yielded in 1908 over \$7,500,000, and the ad valorem tax levy for that year was \$7,188,790. Hence, if the new system had been in force in 1908 no State tax levy on general property would have been necessary.

*Second*—Very considerable relief would have been afforded the overtaxed farmer and small real estate owner, especially in those districts which had heretofore suffered most under the inequalities of the old system. There would in 1908 have been an average saving of 18 cents per \$100 assessed valuation in the county tax rates. If the State tax rate had been up to the normal of 50 cents, and if complete separation had been achieved, the average saving to the small taxpayers would have been 28 cents in tax rate.

In this connection it is permissible to digress long enough to point out that the State tax rate in 1908, 40 cents per \$100, was the lowest adequate State tax rate in the history of the State. The only lower State tax rate ever levied was that of 1902, amounting to 38 2, and that one was so inadequate that it left the cupboard absolutely bare and forced the government to all sorts of makeshifts to meet its obligations. The low tax rate of 1908 is due to the wise economy exercised by the legislature under my advice in making appropriations for the current fiscal year. Yet every branch of the State government has had sufficient funds for all necessary purposes. The legislature of 1907 and the executive departments may both take a pardonable pride in this unsurpassed record of economy achieved without loss of efficiency.

*Third*—The new system would have automatically equalized the burden of taxation among the different classes of taxpayers.

Separation of State from local taxation is not a new scheme in this country. It has been tried out in many states, and others are moving in the same direction. The plan has the endorsement of the great National Tax Reform Association, which is composed of the leading tax experts in the country, together with official representatives of the different state governments. Practical separation, in one form or another, has already been achieved in the following states: Pennsylvania, New York, New Jersey, Connecticut, Wisconsin, Minnesota, Ohio, Michigan, and Virginia, while Missouri, Louisiana, and several others are moving in the same direction. The subjects selected for state taxation vary from state to state, and the methods of determining the taxes to be paid by the subjects so selected vary also. Each state builds on its own historical foundations and develops a system suited to its own peculiar conditions.

The degree of separation attained differs also from state to state. In some it is complete, in others it is only partly so. A small tax on the subjects which contribute to the support of local government is not regarded as in any way lessening the advantages of separation. Thus Wisconsin boasts of being a "taxless state" in the sense that individual property owners do not contribute to the support of the state government in the narrower sense. But she nevertheless imposes a general tax for school purposes known as the "mill tax" (10 cents per \$100 of assessed valuation), the proceeds of which are distributed among the schools in a manner similar to that in which our State school funds are distributed.

Some states which have separation and some which do not, notably Maine, tax public service corporations on the basis of gross earnings, others on the basis of a valuation or appraisement of their property. The latter depends for its success mainly upon the personnel of the board which makes the valuation. It appears to be successful, at least for the time being, in Wisconsin, where it is administered by a strong board of very highly paid men appointed by the Governor for a long term, and retiring from office, one at a time, in such manner that it would take several administrations to entirely change the complexion of the board. The Wisconsin board is vested with most extraordinary powers. New Jersey has recently inaugurated a plan similar in its main features but different in detail, which bids fair to be quite successful. The same system in Michigan is, however, an admitted failure, the board in charge being hampered by too many restrictions in the law and by lack of power. The former sys-

tem, namely, taxes based on gross receipts, has much to commend it in the way of simplicity and efficiency. By my advice the State Commission on Revenue and Taxation sent its secretary, and the State Board of Equalization likewise sent its secretary, to St. Paul, Minnesota, and to Madison, Wisconsin, to study the operation of the tax systems of those states. They returned, bringing a very glowing report of the success of the gross earnings tax in Minnesota, where it has been in operation for many years. The Governor of that State, the State Auditor, and the Railroad and Warehouse Commission, which have active charge of the administration of the tax, were unanimous in giving the system a most hearty endorsement. The only objection to the gross earnings tax seems to be that the average taxpayer and voter has difficulty in understanding that a gross earnings tax can be levied which is equivalent to the taxes levied on the basis of a valuation of property. He is prone to demand that the same method of taxation and the same rates shall be applied to all classes of property, and fails to realize the great difficulty involved in making a valuation of such complex properties as those used by public service corporations. It is probable that this feeling on the part of voters contributed largely to the adverse vote on the last amendment.

In view of the foregoing considerations, and feeling that tax reform is one of the most urgent matters requiring your attention, I have, in my capacity as ex officio chairman of the State Commission on Revenue and Taxation, called upon that body to draft a new amendment to the constitution providing for a new system of taxation. This will be submitted to you at this session, and I recommend it to your most careful consideration, trusting that you will give it your best thought. The Commission is, as you know, composed of able, careful, conservative men, who have been earnestly and diligently studying this problem for over three years. They have gathered all the data necessary to reach a wise conclusion, and their recommendations are entitled to great respect. Were it not for the existence of this Commission, with its accumulation of knowledge and experience, it would not perhaps be wise to propose a new amendment at this time. But under the circumstances it is not necessary to delay the matter for further investigation. The taxpayers should be given another chance to obtain the needed relief at once and while their attention to the matter is aroused.

I further recommend that an appropriation be made to continue this Commission for another two years. If a new amendment is submitted to the people by you the Commission can, in the interval which must necessarily elapse before it is adopted by the people, prepare the statutes necessary to put it into effect and gather the data necessary to show to the people how the plan will work.

#### INSURANCE.

The last legislature passed some very important insurance laws regulating insurance companies and insurance business in this State. The passage of these laws, as anticipated, has accomplished all that was hoped for.

There was also enacted a law presenting a standard form of policy of insurance to be used by all companies writing insurance in this State. This law contained many excellent features, but also contains certain provisions that were opposed alike by the insurer and insured. Many of the best companies doing business in the State threatened to withdraw their agencies if the act in that form became a law, and the large business interests of San Francisco also strenuously opposed its passage. When the bill was before me for consideration, and was being bitterly opposed because of certain provisions which it contained, I asked Mr. Jones, an expert employed by the State to draft proper insurance laws and a standard form of policy, if he had been left alone to follow his own judgment as to what was fair and right, if he would have prepared the standard form which he was then advocating and which the legislature had passed, and he very frankly admitted that he would not. Being then firmly of the opinion that the contract of insurance as contained in this proposed law was wrong in some of its most important provisions, and further because those most directly interested in insurance laws, because of their large property interests upon which heavy insurance was being carried were opposed to the law in its then form, I vetoed the same. Last summer I requested the Clearing House, Chamber of Commerce, Board of Trade, Merchants' Association, and other civic bodies of San Francisco to appoint a representative to meet with the Insurance Commissioner and a representative appointed by the Underwriters of San Francisco and agree upon a standard form of policy to be used in this State. Such representatives were appointed and many meetings have been held, and the question of a standard form has been most carefully and thoroughly considered. This committee will prepare a draft of a bill containing the form agreed upon, which will practically follow the New York standard form, which is in use in nearly all of the states of the Union, and whose every provision has been clearly defined and limited by decisions of the highest courts in the country. I trust that the form of policy presented will meet with your approval, and that you enact it into law.

There are many other matters of greater or less interest to the people of this State, but which on account of my physical condition I am unable to submit to you at this time. From time to time as occasion requires I will be pleased to submit to you those matters I deem to be of special importance.

J. N. GILLET, Governor.

## APPENDIX—LIST OF PARDONS, COMMUTATIONS, AND REPRIEVES.

During the past two years I have granted forty-eight pardons, thirty-four commutations of sentence, and reprieves to seven prisoners under sentence of death. I have endeavored to use extreme care in granting clemency, and in only one instance has a prisoner proven unworthy. Pardons and commutations have been granted for reasons appearing to me to be sufficient, but I am free to confess that under the system in vogue in the past the Executive is extremely likely to err in his judgment. I have, therefore, attempted to adopt a plan by which a prisoner can earn his pardon by good conduct. He is first required to obtain a parole, which is never granted except for exemplary prison life. His conduct on parole is used as a basis to determine his fitness for a pardon. So far as I have been able to apply this rule it has produced most excellent results. As you will observe, many of the pardons issued have been based solely upon good conduct while on parole.

Following is a list of all cases where clemency has been granted, a brief history of each case, and my reasons for acting favorably thereon:

## PARDONS

**MARCH 5, 1907. MAUDE SHEELA**, convicted in Fresno County in November, 1906, of misdemeanor, and sentenced to six months in the county jail. At the time pardon was granted Maude Sheela had served one month of the sentence imposed by the court, and it was represented that she would leave the State if pardoned, and upon the recommendation of Herbert F. Briggs, Judge of the Police Court of the city of Fresno, and Denver Church, District Attorney of the county of Fresno, pardon was granted.

**APRIL 3, 1907. NICHOLE MARCHI**, convicted in Humboldt County in May, 1906, of the crime of assault with a deadly weapon, and sentenced to serve sixteen months in the county jail. Marchi had served eleven months of his sentence, made a most exemplary prisoner, acquiring an English education during the time he was in jail, and a pardon was granted him upon the recommendation of Otto C. Gregor, District Attorney, and G. W. Hunter, Judge of the Superior Court.

**APRIL 11, 1907. STANLEY J. MARTIN**, convicted in the county of Kern in January, 1905, and sentenced to a term of five years at Folsom State Prison. It appeared that Martin was only nineteen years old at the time of the commission of this offense, and the judge, unaware of his youth, sentenced him to a longer term than he felt to be justified, after he learned his true age. The relatives of Martin agreed to remove him from the State, and the same was done as soon as the pardon was granted. Clemency was recommended for him by the Hon. J. W. Manou, Judge of the Superior Court of the county of Kern, and by the entire congressional delegation representing California in the national halls of Congress.

**APRIL 27, 1907. WONG GOW**, convicted in San Francisco of robbery, and sentenced for twenty years. In October, 1903, Wong Gow was paroled, and thereafter his conduct was most exemplary. Upon the recommendation of the State Board of Prison Directors he was pardoned.

**JUNE 20, 1907. LOUIS SOSSMAN**, convicted in the Police Court of the city of Los Angeles, February, 1907, of the crime of misdemeanor, and sentenced to one hundred and fifty days in the city jail. Sossman had made a good record while imprisoned in jail, and there were many mitigating circumstances connected with the case and new evidence was discovered too late to be used by the petitioner. His pardon was recommended by Hon. Wm. Frederickson, Judge of the Police Court; E. J. Fleming, Prosecuting Attorney, G. W. Pearson, Assistant District Attorney, and J. W. McCouly, Chief Jailor.

**JULY 26, 1907. PILAR CARRILLO**, convicted in Los Angeles County of the crime of assault with a deadly weapon, and sentenced to one year in the State Prison at San Quentin. Carrillo, prior to the commission of the offense, bore a good reputation, and the crime was committed while under the influence of liquor. He had, at the time, a wife and three children, who were left in destitute circumstances. His pardon was recommended by the Hon. B. N. Smith, Judge of the Superior Court; J. D. Fredericks, District Attorney; Thomas J. Conaty, Bishop of Monterey and Los Angeles, and many other prominent citizens.

**AUGUST 20, 1907. MICHAEL J. LYONS**, convicted in San Francisco of the crime of forgery, and sentenced to one and a half years at San Quentin. Lyons was afflicted with a fatal illness, and a pardon was granted him so that he might die outside the prison walls. His pardon was recommended by Thomas F. O'Neil, Sheriff of San Francisco; Wm. F. Lawlor, Judge of the Superior Court, and W. H. Langdon, District Attorney.

**SEPTEMBER 30, 1907. MICHAEL A. STOKES**, convicted in Siskiyou County of the crime of robbery, and sentenced to twenty years at San Quentin. Stokes was paroled in 1905, and in view of his exemplary conduct thereafter, and upon recommendation of the State Board of Prison Directors, he was pardoned.

**DECEMBER 2, 1907. ALEX P. RUSSELL**, convicted in Santa Clara County, December, 1890, of the crime of rape, and sentenced to forty-five years in San Quentin.

Russell was released on parole in February, 1905, and his conduct thereafter was most exemplary. On the recommendation of the Board of Prison Directors he was pardoned.

DECEMBER 17, 1907. WILLIAM T. HYNES, convicted in September, 1907, in the Justice Court of Ukiah Township of the crime of petit larceny. Hynes was afflicted with a disease impossible to treat in jail with any degree of success, and owing to conditions therein he was a source of great danger to the other prisoners. He was pardoned upon the recommendation of Robert Duncan, District Attorney; R. E. Donohoe, Sheriff of Mendocino County, and Judson Litchfield, County Physician.

DECEMBER 20, 1907. FRANK MCAULLIFFE, convicted in October, 1907, of the crime of petit larceny, and sentenced to six months in the county jail of Solano County. McAulliffe was but eighteen years old at the time of the commission of this offense, which consisted of the stealing of a second hand pair of shoes valued in the complaint at \$2.50. As the punishment inflicted for said crime seemed to be out of proportion to the seriousness thereof, and as he had served a considerable part of his sentence, I issued him a pardon. The same was recommended by L. G. Harrier, Judge of the Superior Court of Solano County; J. J. McDonald, Sheriff, W. W. R. Reeves, Sr., Justice of the Peace, and Joseph M. Raines, District Attorney.

DECEMBER 21, 1907. CLAUDE E. CURRY, convicted in Yolo County, in October, 1907, of the crime of furnishing intoxicating liquors to a minor, and sentenced to imprisonment for one hundred and fifty days in the county jail. The liquor was furnished to a Miss Barnett, whom Curry afterwards married. It appearing that no further good could be done by compelling Curry to serve his full sentence, I issued him a pardon. This action was recommended by the Hon. E. E. Gaddis, Judge of the Superior Court, W. A. Anderson, District Attorney; E. T. Lampton, Justice of the Peace who pronounced the sentence, and many other of the more prominent people of Yolo County.

DECEMBER 24, 1907. PETER CASTRO, convicted in the Superior Court of Monterey County in May, 1899, of the crime of burglary in the first degree, and sentenced to a term of fifteen years at San Quentin. Castro was paroled September 26, 1905, and thereafter his conduct was most exemplary. In pursuance of my policy to grant pardons to those paroled prisoners who had faithfully observed the parole laws and had shown that they had become industrious, sober, and upright men, I issued Castro a pardon upon the recommendation of the State Board of Prison Directors.

JANUARY 2, 1908. FRED FENTON, convicted in the Justice Court of Suisun Township, county of Solano, in October, 1907, of the crime of petit larceny, and sentenced to six months in the county jail of Solano County. Fenton was a joint defendant with Frank McAulliffe, mentioned above, and was but sixteen years of age. A pardon was granted to him upon the same recommendations and for the same reasons as those granted Frank McAulliffe.

JANUARY 2, 1908. ELSIE SHERWOOD, convicted in San Francisco in October, 1907, of the crime of vagrancy, and sentenced to six months in the county jail. At the time of her conviction Elsie Sherwood was a victim of the opium habit, acquired from her husband, who died prior to her conviction. A pardon was recommended by the Judge who sentenced her. It appearing to me that she had been cured of the opium habit, and upon the promise of her father to remove her from San Francisco and to surround her with beneficial and uplifting influences, I granted her a pardon.

JANUARY 24, 1908. JOHN HURLEY, convicted in San Francisco in the month of January, 1906, of the crime of robbery, and sentenced to five years at San Quentin. Hurley, prior to the commission of this offense, had always been a quiet and industrious citizen. The circumstances showed the crime was committed while under the influence of liquor, without criminal intent. Hurley attempted to take an appeal to the Appellate Court, but all his papers were destroyed by the fire in San Francisco. During the fire Hurley rendered heroic services in aid of the officers of the jail in the preservation of property and the restoration of order in said city. His pardon was recommended by the Hon. W. H. Langdon, District Attorney, and by many of the prominent citizens of that city.

FEBRUARY 4, 1908. THOMAS HENRY BAGSHAW, convicted in the Justice Court of Sausalito Township, Marin County, in the month of February, 1907, of the crime of carrying on business without having first procured a license so to do. He was sentenced to pay a fine of \$300 or be imprisoned in the county jail of Marin County at the rate of one day's imprisonment for each two dollars of the fine. It appeared that many others were arrested for similar offenses at the same time, and Bagshaw's case was made a test. Bagshaw was a laboring man, dependent upon his daily earnings for the support of himself and family, and was unable to pay said fine or any part of it. His pardon was recommended by the Superior Judge of Marin County, the District Attorney, and many other prominent citizens.

FEBRUARY 4, 1908. HENRY C. MILLER, convicted October, 1905, in Shasta County of the crime of rape, and sentenced to imprisonment at Folsom for life. Miller was convicted upon the testimony of his two daughters, both of whom appeared before me, and I am satisfied from their statements and from other matters connected with

said charge, that Miller was innocent. His pardon was recommended by Hon. T. B. Dozier, District Attorney of the county of Shasta at the time of the prosecution of Miller, and by hundreds of the citizens of Shasta County.

FEBRUARY 11, 1908. L. L. CALLENDINE, convicted in Sacramento County, August, 1896, of the crime of robbery, and sentenced to thirty years at Folsom. Callendine was paroled December 23, 1903, and thereafter his conduct was always most exemplary. In pursuance of my policy of granting pardons to those paroled prisoners who had faithfully observed the rules and had shown themselves capable of taking their places in the walks of life, and upon recommendation of the Prison Board, I granted him a pardon.

FEBRUARY 14, 1908. CHARLES GREENFIELD, convicted in December, 1907, in the Police Court of the city of Los Angeles of the crime of vagrancy, and sentenced to ninety days in the city jail. At the time of the arrest Greenfield had just arrived in the city of Los Angeles and was engaged in looking for work, and was not a vagrant within the meaning of the law. In addition thereto, the city jail of Los Angeles at that time was overcrowded, unclean, and extremely unhealthy, and it would have been improper to have longer compelled him to remain in such a place.

FEBRUARY 18, 1908. WALTER HUTCHINSON, convicted in January, 1908, in the Police Court of the city of Los Angeles of the crime of petit larceny, and sentenced to six months in the city jail. Hutchinson was in poor health and afflicted with tuberculosis, and under the conditions existing in said jail it would be impossible for him to recover should he be compelled to complete his sentence.

MARCH 7, 1908. RICHARD FELLOWS, convicted in the county of Santa Barbara in April, 1882, of the crime of robbery, and sentenced to imprisonment for life. Fellows' conduct while in prison had always been exemplary, and his influence was of the best among the younger convicts. Pardon was recommended by a majority of the Judges of the Supreme Court of the State of California, by the district attorney who prosecuted the case, members of the jury and by the officials of Wells-Fargo Company, the prosecuting witness in such case. It was agreed that Fellows should be taken to his old home in Kentucky, where he would be cared for by relatives. For the foregoing reasons a pardon was issued to Fellows by Acting Governor Porter, during my absence from the State.

MARCH 12, 1908. WILLIAM F. BOEHLE, convicted in San Francisco in January, 1885, of murder, and sentenced to State Prison for life. Boehle was paroled December, 1904, and thereafter his conduct was most exemplary. In pursuance of my general policy with paroled prisoners, a pardon was issued to him by Acting Governor Porter.

MARCH 12, 1908. LOUIS PIPER, convicted in April, 1905, in San Francisco of the crime of robbery, and sentenced to nine years' imprisonment at San Quentin. Piper was mistaken for a negro by the name of Brown, and it appears from affidavits made by the police officers of San Francisco, that Piper was not the perpetrator of said crime, but that the crime was actually committed by a man by the name of Brown, to whom Piper bore a close resemblance. Piper was in no way connected with the commission of the crime.

MARCH 12, 1908. TOBIAS RICHARDS, convicted in March, 1882, in the Superior Court of Tuolumne County of the crime of murder, and sentenced for life. Richards was paroled February, 1905, and thereafter faithfully observed all the requirements of the parole law.

MARCH 12, 1908. J. H. GRANDE, convicted in August, 1907, in the county of San Joaquin of the crime of forgery, and sentenced for a term of two and one half years at San Quentin. It was extremely doubtful whether Grande was guilty of crime, or simply violated the civil duty which he owed to his employer, the Frank Simpson Fruit Company. After conviction the Frank Simpson Fruit Company requested clemency for Grande. The conviction of Grande left his family in destitute circumstances, which so preyed upon his mind that he was in danger of going insane. Under these circumstances Acting Governor Porter considered it proper that he should be granted clemency.

MARCH 21, 1908. VINCENT DI PALMI, convicted in November, 1895, in San Francisco of the crime of murder in the second degree, and sentenced to fifty years. Palmi was released on parole in December, 1902. As his conduct thereafter was most exemplary, and in view of the policy of this office to extend pardons to those prisoners who had faithfully observed the parole laws, Acting Governor Porter granted him clemency.

APRIL 2, 1908. JOHN L. MAZINGO, convicted in May, 1880, in the county of Lake of the crime of murder in the first degree, and sentenced to life imprisonment. On March 11, 1905, Mazingo was released on parole by the State Board of Prison Directors. Thereafter his conduct was in strict accord with all the prison rules, and upon the recommendation of the Prison Board he was pardoned.

APRIL 30, 1908. DAVID I. BEAZLEY, convicted in November, 1907, in the Superior Court of the county of Los Angeles of the crime of bigamy, and sentenced to one year in the State Prison at Folsom. Beazley had obtained a divorce from his first

wife and married the second one three days before the year had expired after the issuance to him of an interlocutory decree. Beazley claimed that he had forgotten the exact date, but the same was no excuse under the law. Beazley was recommended by many of the most prominent people of Los Angeles, and by all of the members of the police department of that city. It would seem that this offense was not committed with criminal intent, as Beazley, prior to its commission, had always borne a very good reputation.

MAY 2, 1908. ANGELE DELBOS, convicted in August, 1905, in the Superior Court of the county of San Francisco of the crime of grand larceny, and sentenced for a term of two years in the State Prison at San Quentin. It appears that the defendant's bill of exceptions served in the case of *The People vs. Delbos*, and the People's amendments thereto to be used upon appeal in that case, were destroyed in the fire of San Francisco. That it was thereafter impossible for defendant to take her case to the Appellate Court. From the time of her conviction in August, 1905, she remained in the county jail in San Francisco, and at the time of her pardon had been imprisoned for a considerable longer period than the term of sentence. The Assistant District Attorney of San Francisco recommended her pardon, and stated that he is certain she does not belong to the criminal class, that she had borne a good reputation and merited executive clemency.

MAY 12, 1908. HENRY WILSON, convicted in July, 1907, in the Police Court of the city of Los Angeles of the crime of vagrancy, and sentenced to serve a term of ninety days in the city jail. It appears that said crime was caused by evil associations at the time, from which Wilson has since broken away, and at the time he received a pardon he was living an honest and upright life, and was the sole support of an aged grandmother. His pardon was recommended by the Hon. Joseph F. Chambers, Police Judge of the city of Los Angeles, H. P. Alexander, Assistant Prosecuting Attorney; E. J. Fleming, Prosecuting Attorney of Los Angeles, and many others.

MAY 21, 1908. DYER HELLAM, convicted in February, 1907, in the Superior Court of Monterey County, and sentenced to imprisonment at San Quentin for a term of twenty-five years. Hellam was afflicted with consumption and his death was imminent. His relatives agreed to take him back to Texas, where they could give him a home and care for him. He was recommended by the State Board of Prison Directors, the Prison Physician, B. V. Sargent, Superior Judge of Monterey County, and J. A. Bardin, District Attorney.

JUNE 12, 1908. THOMAS M. GALVIN, convicted in November, 1902, in the Superior Court of the city and county of San Francisco of the crime of perjury, and sentenced for a term of nine and one half years. In October, 1905, Galvin was released on parole by the State Board of Prison Directors, and thereafter his conduct was of the best. Galvin's pardon was recommended by the State Board of Prison Directors and by the majority of the Supreme Judges of the State of California.

JUNE 9, 1908. E. H. ELLSWORTH, convicted in April, 1899, in the Superior Court of Siskiyou County of the crime of murder in the second degree, and sentenced to a term of twenty-two years in San Quentin. In March, 1905, Ellsworth was released upon parole. His conduct thereafter was in strict conformity with the regulation prescribed by the State Board of Prison Directors, and upon their recommendation a pardon was granted.

JULY 16, 1908. FRANK DURAZO and EDWARD DURAZO were convicted in the month of May, 1908, in the Justice Court of Woodland Township, Yolo County, for the crime of petit larceny, and sentenced to six months in the county jail of Yolo County. Both of these young men were under the age of sixteen years, and had been under the control of their mother who, at the time, was living separate and apart from the father. The father was an honest, hard working man, and this pardon was granted upon his express promise to assume control of the boys and give them a suitable education. This pardon was recommended by W. A. Anderson, District Attorney of Yolo County, and by Samuel Montgomery, Sheriff.

JULY 29, 1908. GIACOMO LEGARBO, convicted in February, 1889, in the Superior Court of Santa Clara County of the crime of murder in the second degree, and sentenced to a term of thirty-three years. The State Board of Prison Directors released Legarbo in September, 1905, on parole, all the provisions of which he had faithfully kept, and had conducted himself as an honest, sober, and upright man. After Legarbo had proven his thorough reformation, the Prison Board recommended executive clemency.

JULY 31, 1908. CHARLES LYONS, convicted in the Police Court of the city of Sacramento of the crime of disturbing the peace, and sentenced to three months in the county jail. Lyons had an invalid wife dependent upon him for support, and he was pardoned upon condition that should he ever be again convicted for drunkenness or disturbing the peace, his pardon should be void and he should be compelled to serve the remainder of the sentence cut short by said pardon. Clemency was recommended by S. Luke Howe, City Attorney.

AUGUST 21, 1908. S. C. BURWELL, convicted in the Police Court of the city of Eureka of the crime of assault, and sentenced to a term of thirty days in the county jail. Burwell was an honorably discharged veteran of the civil war and his past life had been most exemplary. The assault upon which he was convicted was committed under very considerable provocation, caused by wrongs committed against said Burwell.

SEPTEMBER 15, 1908. EDWARD FERGUSON, convicted in Contra Costa County of the crime of rape, and sentenced to a term of twenty-five years in the State Prison at San Quentin. In April, 1907, Ferguson was released upon parole by the State Board of Prison Directors and proceeded to San Francisco and proved himself an industrious, sober, and upright man. At the time this pardon was granted, Ferguson had an opportunity to obtain contracts of considerable magnitude in San Francisco, and clemency was extended to him so that he might be enabled legally to enter into the same. This was recommended by the State Board of Prison Directors.

SEPTEMBER 16, 1908. BERNARD WARD, convicted in December, 1899, in the city and county of San Francisco of the crime of embezzlement, and sentenced to a term of seven years in the State Prison at San Quentin. He was received in the prison in February, 1904. In January, 1907, Ward was released upon parole. His conduct thereafter was in strict conformity with the parole laws. Ward's sentence would have expired on November 20th. In view of his good conduct, attested by nearly two years of liberty on parole, I felt moved to grant him clemency prior to the expiration of his term. This action was recommended by the State Board of Prison Directors.

SEPTEMBER 23, 1908. OWEN N. WILSON, convicted in May, 1904, in the Superior Court of the county of Kings of the crime of rape, and sentenced to undergo an imprisonment of ten years. In 1907 Wilson was released upon parole by the State Board of Prison Directors. Thereafter his conduct was most exemplary, and he had proven himself to be an industrious, sober, and upright man. Wilson had become engaged to an estimable young woman who had been thoroughly informed of his past, but under parole regulation he was unable to marry her. The Prison Board recommended that in view of all the circumstances it would be well to grant Wilson clemency.

SEPTEMBER 24, 1908. PETER W. MCGLADE, convicted in July, 1901, in the Superior Court of the city and county of San Francisco of the crime of forgery, and sentenced to imprisonment for a term of eight years in the State Prison at San Quentin. In July, 1906, McGlade was released upon parole by the State Board of Prison Directors. Thereafter he lived an industrious, sober, and upright life, in strict conformity with the rules prescribed by the State Board. The Board recommended this application.

SEPTEMBER 30, 1908. CHARLES O'BRIEN, convicted in the county of Sacramento of murder in the first degree, in November, 1882. O'Brien was sentenced to imprisonment for the term of his natural life. O'Brien during more than twenty-six years' actual time in the prison had committed but one infraction of the rules. He had become old and feeble, and being an ex-soldier, was entitled to admission in the Soldiers' Home. He was also offered a position, where he would have support, by the Prefect of St. Mary's College. Clemency was recommended by the State Board of Prison Directors and by a majority of the Justices of the Supreme Court.

SEPTEMBER 30, 1908. F. F. JOHNSTON, convicted in the Justice Court of Chico Township, Butte County, of the crime of battery, and sentenced to imprisonment for six months in the county jail. From petitions received at this office, signed by numerous citizens of Butte County, it appeared that Johnston had entered a plea of guilty to the offense under the belief that he would receive a light sentence. It appeared that the sentence was excessive and out of proportion to the offense committed. Clemency was recommended by the Justice of the Peace who had sentenced Johnston.

NOVEMBER 7, 1908. J. E. RODLEY, convicted in February, 1900, in the Superior Court of the county of Butte of the crime of perjury, and sentenced to imprisonment for a term of twelve years in the State Prison at San Quentin. Rodley was released upon parole in February, 1906, and thereafter his conduct was most exemplary. Clemency was recommended by F. H. DePue, Director of the State Bureau of Criminal Identification, John C. Gray, Superior Judge of Butte County, and many of the prominent citizens of the county who were familiar with Rodley's conduct while on parole.

NOVEMBER 7, 1908. SMITH A. BRANDON, convicted in April, 1908, in the Superior Court of the county of Alameda of the crime of assault with a deadly weapon, and sentenced to serve one year in the county jail of Alameda County. From certificates of physicians it appeared that Brandon's health was in a very dangerous condition, and that his life would be imperiled should he be longer incarcerated. Recommendations for clemency were filed by the Hon. T. W. Harris, Judge of the Superior Court, and the Hon. Everett J. Brown, then District Attorney of the county of Alameda.

NOVEMBER 17, 1908. GEORGE M. SPALDING, convicted in the Superior Court of the county of Humboldt in July, 1905, of the crime of forgery on two charges, and sentenced to undergo an imprisonment of three years on each. Spalding's conduct in prison was most exemplary, and secured for himself the recommendation of the

warden of the said prison. Clemency was recommended also by a majority of the Judges of the Supreme Court of the State of California, and by Otto C. Gregor, District Attorney of Humboldt County.

DECEMBER 8, 1908 STEPHEN WEAVER, convicted in the Superior Court of the county of Contra Costa in April, 1904, of the crime of attempt to rape, and sentenced to imprisonment for a term of eight years. In December, 1906, Weaver was released upon parole by the State Board of Prison Directors. His conduct thereafter was always most exemplary, and he faithfully lived up to all the rules prescribed by the State Board of Prison Directors. Upon their recommendation, and in pursuance of my usual policy to pardon paroled men who had shown by their conduct that they had completely reformed, I granted a pardon to Weaver on the above date.

#### COMMUTATIONS

FEBRUARY 7, 1907 FRED RAABE, JR., convicted in May, 1904, in the city and county of San Francisco of the crime of robbery upon two counts, and was sentenced to undergo an imprisonment at the State Prison at Folsom for ten years on each count, making an aggregate term of twenty years. Raabe's term was ordered commuted by Governor Pardee for the reasons stated in his message to the Legislature of the State of California at its thirty-seventh session. At the time of the expiration of Governor Pardee's term the recommendation had not yet been received from the Justices of the Supreme Court. Upon its receipt I granted Raabe a commutation in conformity with the order of Governor Pardee.

MARCH 26, 1907. GEORGE CAMERON, convicted in San Francisco in September, 1898, of burglary, with a previous conviction of felony, and sentenced to life imprisonment. In this Governor Pardee had also made an order for a commutation of his sentence, and upon receipt of the recommendation from a majority of the Judges of the Supreme Court, this commutation was issued in conformity with such order.

JULY 24, 1907 ABE G. SCHWARTZ, convicted in April, 1905, in the Superior Court of the city and county of San Francisco of the crime of grand larceny, and sentenced to undergo a term of four years in the State Prison at San Quentin. Prior to the commission of the offense upon which his conviction was based, Schwartz had always borne a good reputation, and his conduct and behavior up to the time of the commission of such offense was beyond reproach. It was the belief of those who recommended clemency, that if given his liberty he would make a good citizen and profit by the punishment he had received. Recommendations were received from Hon. Frank W. Dunne, Judge of the Superior Court before whom Schwartz was tried; Lewis F. Byington, Assistant and Deputy District Attorney of San Francisco, and Hon. J. V. Coffey, Charles L. Weller, Hon. Edward I. Wolfe, Hon. Samuel L. Beckett, and many other prominent citizens of that city.

SEPTEMBER 30, 1907 ALBERT WEBB MELOING, convicted in the month of June, 1905, in the county of Los Angeles of the crime of burglary in the second degree, and sentenced to undergo an imprisonment for five years in the State Prison at Folsom. At the same time and place his wife was sentenced to undergo an imprisonment of three years. It appears that his wife was solely dependent upon Meloling for a livelihood, and that it was necessary for her welfare and protection that her husband be at liberty to assume the responsibility of protecting and providing for her. Recommendations for clemency were presented by the Hon. B. N. Smith, before whom Meloling was tried and the Hon. J. D. Fredericks, the District Attorney who secured his conviction. It was represented by the Hon. J. D. Fredericks that the sentence of Meloling was too severe under the circumstances, and his sentence was accordingly cut short so that he might be released from prison at the same time his wife regained her liberty.

OCTOBER 1, 1907. N. H. McLEAN, convicted in May, 1900, in the county of Los Angeles of the crime of embezzlement, and sentenced to undergo an imprisonment of ten years. During his imprisonment he had proven himself a model prisoner and rendered most faithful service to the State. In view of this fact, the State Board of Prison Directors felt moved to recommend the commutation of his sentence. This was also concurred in by the Hon. B. N. Smith, Judge of the Superior Court, who presided at the time of his conviction. Mr. McLean was offered a position by his former employer in Chicago, and upon his release immediately proceeded to that place.

OCTOBER 10, 1907. H. H. KAUFFMAN, convicted in the county of Inyo, in June, 1906, of the crime of embezzlement, and sentenced to undergo an imprisonment of 10 years in the State Prison at San Quentin. Prior to his conviction Kauffman had always borne a good reputation as a hard working, honorable man. The offense was committed while Kauffman was intoxicated, and was not the result of a deliberate and premeditated design to steal. Recommendations for clemency were received from the Superior Judge of Inyo County, the District Attorney, and many of the more prominent citizens of the vicinity.

DECEMBER 11, 1907. JOHN G. VAN TINE, tried and convicted in June, 1898, in the Superior Court of the county of Sacramento of the crime of robbery, and sentenced to a term of twenty years in the State Prison at San Quentin. Van Tine had

suffered a previous conviction for burglary. Van Tine's record in prison had been such as to commend him strongly to the Board of Prison Directors, and there was every reason to believe from his prison conduct that he had thoroughly reformed and repented of the errors of his ways. They accordingly presented a recommendation that his term be commuted from twenty years to fifteen years. His sentence was commuted so that he should regain his liberty on the first day of January, 1908. Recommendations for clemency were also received from a majority of the Judges of the Supreme Court of the State of California and from the Hon E. C. Hart, Judge of the Superior Court of the county of Sacramento; eleven of the twelve jurors who tried Van Tine, and from many other prominent citizens of Sacramento County. I wish to say that the confidence reposed in Van Tine was misplaced, for shortly after his release he proceeded to the State of Nevada, committed highway robbery, was tried and sentenced to a term of ten years in the Nevada State Prison.

DECEMBER 11, 1907. ORRIN BEAN, convicted in the Superior Court of the city and county of San Francisco of the crime of burglary in the second degree, and sentenced to undergo an imprisonment of five years. On the same day he was convicted of a second charge of burglary in the second degree, and sentenced to two years. On the same day he was convicted of a third charge of burglary in the second degree, and sentenced to undergo an imprisonment of two years, and on the same day he was convicted of the crime of grand larceny and sentenced to undergo an imprisonment of one year, such sentences not to run concurrently, but one to follow the termination of the other. At the time Bean was sentenced it was the custom to allow credits for the aggregate period of time, to wit, ten years. Afterwards, acting under an opinion of the Attorney General, credits were allowed for each separate sentence. The result from this change of the method of computation was to increase the sentence of Bean very considerably. Upon representation of the Hon Carroll Cook, who sentenced Bean, it was shown that it was his intention in imposing the sentence that Bean should receive the full credits based upon the entire time he was to serve. In other words, he intended to impose judgments equal to a single ten-year sentence. In view of these circumstances, a majority of the Judges of the Supreme Court of the State of California recommended that Bean's term be commuted so that he would serve only such time as he would have served had he been given a single ten-year sentence. I, therefore, commuted the sentence of Bean, so that he would obtain his liberty on the first day of October, 1908.

DECEMBER 11, 1907. CLARENCE T. MILLER, convicted in April, 1904, of the crime of rape in the county of San Bernardino, and sentenced to imprisonment for seven years. Thereafter Miller received a parole from the State Board of Prison Directors. From the time of his release his conduct was uniformly good, and petitions were received at this office recommending that his sentence be commuted, giving as reasons therefor that Miller, since his release on parole, had obeyed the law and all the terms of the same. That he had three children living in Upland that required his support, and under the terms of his parole it was difficult for him to keep constantly employed as the business of the town was of such a character that it rendered it necessary to make frequent changes of employment. Recommendations of similar character were received from Benjamin F. Bledsoe, Judge of the Superior Court of San Bernardino county, and L. M. Sprecher, District Attorney of said county. In pursuance of such recommendations I commuted Miller's sentence so that the same would expire on the 25th day of December, 1907.

DECEMBER 11, 1907. CHARLES BUCHANAN, convicted in the Superior Court of the city and county of San Francisco of the crime of burglary in the second degree, and sentenced to five years in the State Prison at San Quentin, and on the same day and date was convicted of the crime of assault with a deadly weapon, and sentenced to two years in the State Prison, the latter sentence to take effect on the termination of the former one. This case of Buchanan's conforms in all respects to the case of Orrin Bean, and for the same reasons and upon the statement of the Superior Judge and the recommendation of the Supreme Court, his sentence was commuted to the same length as a single term seven-year sentence.

DECEMBER 16, 1907. JOHN MEYERS, convicted in the Justice Court of the city of Vallejo of the crime of disturbing the peace, and sentenced to thirty days in the county jail. Meyers was a recruit in the United States Navy, and his vessel, the U. S. S. Maryland, was to sail from Vallejo December 21st. On petition of Captain Chauncey Thomas, commanding the U. S. S. Maryland, Meyers was released on December 20th, so that he might be able to join his ship prior to its leaving upon a cruise.

FEBRUARY 14, 1908. EDWARD ROWE, convicted in May, 1904, in Amador County of the crime of assault to murder, and sentenced to ten years in San Quentin. Rowe, at the time of the commission of this offense was but eighteen years of age. His conduct while in prison was of the best. Since his imprisonment his father died, leaving his mother and her three children in destitute circumstances. Favorable action was recommended by Hon R. C. Rust, Superior Judge of Amador County, and C. P. Vicini, District Attorney, and by many others who were cognizant of the circumstances surrounding the offense and of the present condition of the family.

MARCH 12, 1908. ARTHUR RISHER, convicted in May, 1904, in the Superior Court of the city and county of San Francisco of the crime of burglary in the second degree, and sentenced to seven years in San Quentin. Risher's prison life was most commendable, and he gave every promise of having completely reformed. The State Board of Prison Directors recommended that his sentence be commuted to such term as should be equitable and reasonable under the circumstances. The Justices of the Supreme Court recommended that the sentence be commuted so as to entitle him to his discharge at once. In view of these recommendations and others on file, Acting Governor Porter commuted his sentence in accordance with the recommendation of the Supreme Court.

MARCH 12, 1908. PHILIP B. NELSON, convicted in San Francisco in August, 1905, of the crime of forgery and sentenced to twelve years at San Quentin. The State Board of Prison Directors recommended that Nelson's term be commuted to such time as should seem reasonable to the Governor. A majority of the Judges of the Supreme Court joined in a further recommendation that such sentence be commuted to a term of three and one half years. In view of these recommendations Acting Governor Porter commuted Nelson's sentence to the term of three and one half years, conditioned that said Nelson should immediately leave the State of California and never return thereto.

MARCH 12, 1908. JOSEPH FITZGERALD, convicted in August, 1900, in the city and county of San Francisco of the crime of arson, and sentenced to twenty years at San Quentin. Fitzgerald, during his term in prison, rendered valuable and material services to the State, and his conduct therein was uniformly good. Under these circumstances the Board of Prison Directors recommended that the said Joseph Fitzgerald be pardoned, and that his sentence be commuted as the Governor might elect. Sentence was accordingly commuted to take effect immediately.

MARCH 12, 1908. HORACE J. DOBBINS, convicted in January, 1901, of the crime of murder in the first degree, in Solano County, and sentenced to imprisonment for the term of his natural life. Dobbins' prison conduct was uniformly good, and it further appeared that Dobbins had saved the life of one J. H. Murray, officer of the prison at San Quentin, who was murderously assaulted by a prisoner condemned to death. In doing so Dobbins risked his own life in the protection of said officer. The Prison Directors cordially recommended that the sentence of Dobbins be commuted, and Acting Governor Porter, in pursuance of such recommendation, ordered that the same be commuted to a term of twenty years.

MARCH 12, 1908. EDWARD MORRELL, convicted in April, 1894, in Fresno County of the crime of robbery, and sentenced to the term of his natural life at San Quentin. The Board of Prison Directors recommended that Morrell's sentence be commuted to such time as would entitle him to immediate release. His application was also strongly recommended by the officers of the prison, the Judge who tried the case, the District Attorney who prosecuted the same, and the City Marshal of Fresno, upon whom the crime was committed. A majority of the Judges of the Supreme Court also joined in the recommendation that such commutation be made. In accordance with such recommendation Acting Governor Porter commuted his sentence to take effect immediately.

MARCH 12, 1908. EDWARD S. BOESE, convicted in March, 1907, of the crime of assault with a deadly weapon, and sentenced to a term of two years in San Quentin. Recommendation for a commutation of sentence was made by the Board of Prison Directors in view of his exemplary conduct while in prison, his good behavior, and their further reasonable belief that Boese would make a good citizen, if released. Acting Governor Porter accordingly granted him a commutation of sentence upon such recommendations.

MARCH 20, 1908. GEORGE C. CONTANT, convicted November, 1898 in the county of Fresno of the crime of robbery, and sentenced for the term of his natural life. Contant rendered most valuable aid to the State in the conviction of John Sontag and Chris Evans, and in consideration of his testimony there given, it was agreed by the representatives of Wells-Fargo's Express Company, and the Southern Pacific Railroad Company, against which corporations said crime was committed, and by the Warden of the State Prison at Folsom, that in consideration of the evidence to be given against said Sontag and Evans, they would use their influence to have the sentence of said Contant commuted after he had served a reasonable length of time. Relying upon said promise, Contant, in good faith, appeared at said trial and gave testimony concerning the crime of Sontag and Evans which secured their conviction. It appeared right and proper to Acting Governor Porter that good faith should be kept with said Contant, and that the promise so made to him should be carried out on the part of the State. Accordingly, a commutation was ordered which entitled him to be released immediately.

MARCH 20, 1908. JOHN GRAHAM, convicted in October, 1901, in the county of Napa of the crime of murder in the second degree, and sentenced to a term of twenty years in the State Prison. Graham's conduct after admission to the prison was uniformly good, and prior thereto he had always borne a good reputation, and was a hard working honorable man, an ex-sailor of the civil war, and one of the seamen

on board Farragut's flagship "Hartford" during its memorable battle. Clemency was recommended for Graham by the Hon Theodore Bell, former District Attorney of Napa County, who prosecuted him. In view of such conduct and of the recommendations filed in Graham's behalf, Acting Governor Porter commuted his sentence so that he was released immediately.

MARCH 20, 1908. A. H. SHERMAN, convicted in July, 1901, in Fresno County of the crime of rape, and sentenced to eleven years in the State Prison. Sherman was released upon parole in the year 1906, and subsequent to that time his conduct was most exemplary, and he proved himself to be a sober, industrious, and upright man. In view of these circumstances Acting Governor Porter ordered that his sentence be commuted to take effect immediately.

MARCH 31, 1908. HENRY RILEY, convicted in June, 1881, of the crime of robbery, and sentenced to the term of his natural life in the State Prison. Riley's prison life was most commendable, and he gave every promise of having completely reformed. The Board of Prison Directors recommended that his sentence be commuted to a term of forty-five years, in which recommendation they were joined by a majority of the Judges of the Supreme Court of the State of California. In accordance therewith Acting Governor Porter commuted the term of Henry Riley from that of life imprisonment to a term of forty-five years.

MAY 21, 1908. EDWARD MANASSE, convicted in August, 1906, in Sacramento County of the crime of murder in the first degree, and sentenced to be hanged. Manasse's crime was committed under considerable provocation, and prior thereto he had always borne an excellent reputation for peace and quiet. A commutation of sentence was recommended by the District Attorney of Sacramento County, the Sheriff of said county, the Warden of the State Prison at Folsom, together with nearly all the jurors who sat in judgment upon his case. In view of these circumstances, I commuted the sentence of Manasse from hanging to life imprisonment.

JUNE 8, 1908. HARRY SCHWERIN, convicted in Los Angeles County in June, 1906, of the crime of uttering and passing fictitious checks, and sentenced to five years in the State Prison. A majority of the Judges of the Supreme Court of the State of California recommended that Schwerin be granted executive clemency. Recommendations were also received from the Hon Julius Kahn, member of Congress of California, Hon. M. H. Flint, Postmaster of the city of Los Angeles; Hon. Chas. T. Dunwell, Wm. M. Calder, George R. Malby, and Charles B. Law, members of Congress from the State of New York. Commutation was granted Schwerin so that his sentence would expire on the first day of July, 1908, and it was conditioned that immediately upon his release he would depart from the State of California and never return thereto.

JULY 15, 1908. FRANK H. ROLFE, convicted in Tuolumne County in April, 1882, of the crime of robbery and prior conviction, and sentenced for the term of his natural life at San Quentin. Recommendations for clemency were received from the State Board of Prison Directors, and from a majority of the Judges of the Supreme Court. These recommendations were based upon Rolfe's general good character, worthy conduct as a prisoner, that he had served the equivalent of a 43-year sentence, and upon a promise made by State Senator J. B. Curtin that he would provide a home for him in case of his release. Commutation was granted by which his sentence was fixed at the term of forty-three years.

AUGUST 5, 1908. W. B. MARVIN, convicted in March, 1900, in the Superior Court of the city and county of San Francisco of the crime of burglary in the second degree, and sentenced to a term of four years in the State Prison; and on the same day and date was convicted of the crime of burglary in the second degree, and sentenced to a term of four years in the State Prison; and on the same day and date was convicted of the crime of burglary in the second degree, and sentenced to a term of four years, such terms running consecutively. This case conforms in all respects to the case of Orrin Bean, referred to above, and upon the recommendation of a majority of the Judges of the Supreme Court the sentence of Marvin was commuted to equal a single term sentence of twelve years.

AUGUST 8, 1908. RICHARD KENNER, convicted in February, 1876, in Tehama County of the crime of murder in the second degree, and sentenced for the term of his natural life in the State Prison at San Quentin. On March 14, 1908, the State Board of Prison Directors adopted a resolution recommending the commutation of the sentence of Kenner. In this recommendation the action of the Board was concurred in by a majority of the Judges of the Supreme Court, who recommended the granting of such application. In accordance with such recommendation, Kenner's sentence was commuted to a term of fifty-four years.

SEPTEMBER 15, 1908. JOHN CRAIG, convicted in March, 1908, in Orange County of the crime of burglary, and sentenced for a term of ten years in the State Prison at San Quentin; and at the same time and place was convicted of the crime of burglary in the second degree, and sentenced to an additional term of five years. Craig saved the life of a fellow-prisoner from the murderous assault of Jacob Oppenheimer, and by so doing undoubtedly saved the lives of others, as well as some of the officers. In view of his conduct in such matter, the Prison Board recommended

that he receive executive clemency. A majority of the Judges of the Supreme Court also recommended that the application of the prisoner for a commutation of his sentence be granted to the extent that he be discharged upon the expiration of his ten years' sentence. In accordance with such recommendation, it was directed that Craig be discharged upon the expiration of such sentence.

OCTOBER 2, 1908. EARL G. WESTMORE, convicted in March, 1902, in San Francisco of the crime of assault to murder and sentenced to imprisonment for eight years, and on said day and date was convicted of an assault with a deadly weapon and sentenced to undergo an imprisonment of two years, the second sentence to take effect on the termination of the preceding one. Westmore's case conformed in all respects to that of Orrin Bean referred to above, and for the reasons therein given his sentence was commuted so that he would be entitled to his discharge at the time he would have been discharged had he received a single ten years' sentence.

OCTOBER 9, 1908. WM. R. RAYMOND, convicted in San Francisco in October, 1891, of the crime of murder in the second degree, and sentenced to a term of thirty-five years in the State Prison at San Quentin. During Raymond's term of imprisonment he rendered most unusual and valuable service to the State, and his prison conduct was most exemplary. These facts moved the Board of Prison Directors to recommend his case for executive clemency. The same recommendation was also made by a majority of the Justices of the Supreme Court. In pursuance of such recommendations and in consideration of the valuable services that had been rendered to the State by Raymond, I commuted his sentence so that he would be entitled to his release at once.

OCTOBER 14, 1908. EDWARD H. DAY, convicted in May, 1904, in San Francisco of the crime of burglary in the second degree, and sentenced to imprisonment for three years, and on said day and date was convicted of the crime of burglary in the second degree, and sentenced to an imprisonment of three years, the second sentence to take effect on the termination of the preceding one. Day's sentence conforms in all respects to that of Orrin Bean stated above. In view of these circumstances the Board of Prison Directors and a majority of the Judges of the Supreme Court recommended a commutation of sentence. Commutation was accordingly directed so that his sentence would expire at the time the same would have expired had he been sentenced to a single term of six years.

OCTOBER 28, 1908. ROBERT WHITE, convicted in the county of San Joaquin in July, 1907, of the crime of forgery, and sentenced to a term of six years in the State Prison at San Quentin. White was in the last stages of consumption, and could live but a short time. He had received an offer of a home for the remainder of his life and would not become a public charge or expense to the State of California. Under these circumstances a majority of the Judges of the Supreme Court felt moved to recommend him for clemency, and in accordance with such recommendation his sentence was commuted so that he would be discharged immediately.

OCTOBER 28, 1908. JAMES LEDGER, convicted in San Francisco in November, 1894, of the crime of burglary in the first degree, and sentenced to a term of thirty years in the State Prison at San Quentin. On the 20th day of June, 1908, the Board of Prison Directors recommended that the sentence of Ledger be commuted for the reason that Ledger had been a model prisoner, that there was reasonable ground to believe that he would never again violate the criminal laws and that in the opinion of the Board he had been sufficiently punished. In this view they were joined by a majority of the Justices of the Supreme Court, who also recommended Ledger for clemency. Under these circumstances a commutation was ordered releasing Ledger at once.

OCTOBER 28, 1908. BERNARD P. TAYLOR, convicted in December, 1907, in the county of Alameda of the crime of assault with a deadly weapon, and sentenced to imprisonment in the county jail for a period of eighteen months. Prior to the commission of said offense Taylor had always borne a good reputation as a peaceable, quiet, and law-abiding citizen. Recommendations for clemency were received from the Hon. Claude A. Swanson, Governor of the State of Virginia; Frank Barnett, Sheriff of the county of Alameda, and many of the employees of the county jail and citizens of the county of Alameda. It further appears that the offense was committed under very considerable provocation, and there is no probability of conditions arising that would lead Taylor to again violate the law. Accordingly a commutation was granted him by which he was ordered discharged on the 31st day of December, 1908, after he had served a full year of his sentence.

#### REPRIEVES OF SENTENCE.

MARCH 25, 1907. LEON SOEDER, convicted in the city and county of San Francisco of the crime of murder in the first degree, and sentenced to be executed in San Quentin Prison on Friday, the 22d day of March, 1907. I ordered a reprieve in the above case so that I might have a better opportunity to determine the propriety of the above sentence. There appearing to be no sufficient reason why the sentence of the court should be modified, Soeder was executed on the 29th day of March, 1907, the date fixed by said reprieve.

**APRIL 29, 1907.** FRANK WILLARD, convicted in the Superior Court of the county of Mendocino of the crime of murder in the first degree, and sentenced to be hanged in the San Quentin Prison. Willard was reprieved until the 31st day of May, 1907. Thereafter, and on the 28th day of May, 1907, I granted a second reprieve until the 14th of June. These reprieves were granted in order that the court might be enabled to determine Willard's sanity at that time. On the 7th day of May, 1907, a jury impaneled for the purpose of determining his sanity rendered a verdict that he was sane. Willard was executed on the date of the expiration of the last reprieve.

**APRIL 15, 1908.** EDWARD MANASSE, convicted in the Superior Court of the county of Sacramento in August, 1906, of the crime of murder of the first degree, and sentenced to be executed at Folsom Prison on the 26th day of October, 1906. Manasse appealed said case, and upon the determination of such appeal he was resentenced to be executed on the 24th day of April, 1908. A petition was filed in this office for Manasse's reprieve and commutation of sentence, signed by the District Attorney and Sheriff of Sacramento County, and by many of the jurymen who tried Manasse. Also requests of like nature were received from Hon. E. C. Hart, Judge of the Superior Court of Sacramento County before whom Manasse was tried, and from Hon. W. H. Reilly, Warden of the Folsom Prison. On the 21st day of May, 1908, I granted a commutation of sentence.

**APRIL 15, 1908.** J. W. FINLEY, convicted in the Superior Court of the county of Sacramento in December, 1906, of the crime of assault with a deadly weapon with malice aforethought, defendant then being a prisoner undergoing a life sentence in the State Prison. As punishment therefor, Finley was sentenced to be executed at the State Prison at Folsom, the 2d day of March, 1906. Finley thereafter appealed his case to the Supreme Court of the State, which appeal was denied. The Superior Court of Sacramento County thereafter ordered that Finley be executed on the 17th day of April, 1908. By reason of my absence from the State I had no opportunity to examine the matters submitted to this office upon his application for clemency. I therefore reprieved him until the 15th day of May, 1908. Subsequent reprieves were made on May 14th, May 27th, June 10th, and August 12th to enable Finley to apply for a writ of error to appeal to the Supreme Court of the United States.

**JULY 28, 1908.** CONSTANTINO BORSEI, convicted in the Superior Court of Los Angeles County of the crime of murder in the first degree, and sentenced to be executed at San Quentin Prison on the 12th day of August, 1908. Representations were made to me by the Italian Consul, and others, that it was desired to determine the mental competency of said Borsei. To enable this to be done a reprieve was granted until the 11th day of September, 1908. There being no reason to believe at that date that Borsei was of unsound mind, the sentence was duly executed.

**DECEMBER 9, 1908.** FRANCISCO QUIJADA, convicted in the month of December, 1905, in the Superior Court of the county of Sacramento of the crime of assault with a deadly weapon with malice aforethought, defendant being at the time of the commission of said assault a life prisoner in the State Prison, and sentenced to be hanged. Quijada was convicted under the provisions of Section 246 of the Penal Code, and as the constitutionality of such section was in question in the case of the People vs. J. W. Finley, on appeal to the Supreme Court of the United States, I ordered a reprieve until the 12th day of February, 1909, so that he might not be executed until the constitutionality of such section was determined.

**DECEMBER 9, 1908.** THOMAS P. FALLON, convicted in the Superior Court of the city and county of San Francisco in the month of October, 1904, of the crime of murder in the first degree, and sentenced to be hanged on December 11, 1908. It appeared that Fallon had filed a petition in the Supreme Court of the State of California for a certificate of probable cause to determine the validity of the warrant of execution. At the time of such filing the Supreme Court was not in session, and I granted a reprieve in order to have this matter properly presented before the Supreme Court, and to give them due time for the consideration thereof. Execution of the judgment, by such reprieve, was stayed until Friday, January 8, 1909.

J. N. GILLET, Governor.

*To the Honorable the Senate and Assembly, State of California*

*Resolved by the Board of Supervisors of the County of Sacramento, California*, That the Senate and Assembly of the Legislature of the State be, and are, hereby respectfully memorialized to consider the situation which exists in many other counties in this relation, and to provide such remedial legislation as may be possible, whereby the burden of the support of deserted wives and children may be cast upon the guilty parties, and the latter be required by enforced labor, or other service, to produce means for the support of the deserted

#### PETITION.

The following petition was presented:

SACRAMENTO, January 9, 1909.

*To the Honorable the Assembly of the State of California*

Your memorialist is the Sacramento County Society for the Prevention of Cruelty to Children, many years existing under the laws of the State.

Your petitioner prays you to pass the bill introduced into your body by Hon. Grove L. Johnson of Sacramento, providing for amendment of Sections 270, 271, and 271a of the Penal Code, all relating to crimes against children.

In recent years the crimes of desertion and of abandonment of children of tender years have become of alarming frequency and volume, demanding some remedial legislation, because of seeming inadequacy of present laws and of inability of judicial power to cope with the evil.

The conditions resulted in a demand for a law requiring counties to employ offenders referred to at enforced labor, at a fixed wage, which should be applied to the support of the abandoned or deserted. Your petitioner for a time joined in that petition. It attempted to have framed such an Act as was asked for, but found it would be cumbersome, of doubtful practicability, and would in a State such as California, of vast area, and not of dense population, be difficult of enforcement, if enacted into law, and would impose upon counties for ways and means provision for labor, undue burdens, your

memorialist is advised, however, that the enactment into law of the bill of Mr. Johnson will highly conserve the ends in view, when taken into consideration with what is known as the "Probation" law, by which, under suspension of sentence, the orders of the court, with reasonable certainty, may be enforced. The bill of Mr. Johnson therefore raises the grade of the offenses to that of felony, at the discretion of the court. With a State prison term staring a defendant in the face, and an offered way of escape by labor under parole, it is believed the offenders will diminish in number greatly, and the crimes referred to be gratifyingly reduced, while if an offender escapes to another jurisdiction he may by extradition procedure be returned. As the law now stands the offenders, as a rule, prefer county jail to compliance with duty, and leave to the taxpayers the burden of support of the deserted children.

The distinction made in the bill of Mr. Johnson between desertion and abandonment, is, we find, one observed in the laws of older states, where, as here, one offense is deemed more blameworthy than the other.

And your memorialists will ever pray.

BY THE SOCIETY.

A. BONHEIM, President.

J. A. WOODSON, Secretary.

The petition was read, ordered printed in the Journal, and referred to Committee on Public Charities and Corrections.

## QUESTION OF PERSONAL PRIVILEGE.

Mr. Young arose to a question of personal privilege, and asked for and was granted permission to have the following statement printed in the Journal:

ASSEMBLY, CALIFORNIA LEGISLATURE,  
THIRTY-EIGHTH SESSION.

I was instructed by my Assembly convention to oppose the reelection of Senator Perkins. I have carried out my instructions to the very best of my ability. It was

almost unanimously decided by those of similar views with myself that the only place for any possible effective opposition was the Republican caucus. Although I did not sign the caucus call, nevertheless I went into that caucus for the purpose of carrying out my instructions. My actions and words there are known to all those who attended that caucus. My vote there is on record on a call for ayes and noes demanded by myself. I went into the caucus with my eyes open, knowing that if my opposition there failed I should be bound by the action of the caucus. I have accordingly to-day voted for the caucus nominee.

#### TELEGRAM.

WASHINGTON, D. C., January 12, 1909

HON. WARREN R. PORTER, *President of the Senate*, and HON. P. A. STANTON, *Speaker of the Assembly, California State Legislature, Sacramento, Cal.*

Permit me to make grateful acknowledgment to you, and through you to the members of the Legislature and the people of California, for the great honor conferred upon me in electing me for the fourth time one of California's representatives in the Senate of the United States. My record in the past I offer as the best guarantee I can give that in the future I will strive to the utmost of my ability to faithfully and honestly represent all of the people and to uphold the honor and strive for the welfare of our country and commonwealth. The people have only to make known to me through the Legislature, county, city or commercial organizations, their wishes, and I, as their public servant and representative, will endeavor to obey their command. The highest ambition and prayer of my life is to so perform my duties in Congress that when I retire to private life at the expiration of the term for which I have been elected, I may have and retain the good will of the people of the Golden State, who have so often honored me with their confidence.

(Signed) GEORGE C. PERKINS.

#### RESOLUTION.

The following resolution was offered:

By Senator Bates:

*Resolved*, That the Secretary of the Senate and the Chief Clerk of the Assembly be, and they are hereby, directed to prepare and transmit forthwith to the Governor of the State of California a copy of the proceedings of the Joint Assembly pertaining to the election, and declaring the election of a person to the United States Senate in Congress

from California for the term of six years, beginning March 4, 1909, in accordance with an Act of Congress entitled "An Act to regulate the time and manner of holding elections for Senators in Congress," approved July 25, 1866, and that said copy be attested by the President and the Secretary of the Senate, and the Speaker and the Chief Clerk of the Assembly.

Resolution read, and adopted.

On request of Senator Caminetti, the following statement was ordered printed in the Journal:

STATEMENT BY SENATOR CAMINETTI.

MR. PRESIDENT: During the campaign of 1906, in the Tenth Senatorial District, resulting in my election as Senator, I made the question of "The election of United States Senators by direct vote of the people" one of the leading issues upon which I asked the suffrages of the people. I then pledged myself in all my speeches, and in the press, to endeavor to secure the passage of a law by the Legislature, in case of my election having that object in view, and in case of failure in the effort I would nevertheless follow that principle and vote for the choice of a majority of the qualified electors of that district in the selection of a Senator during my term of office.

The last session of the Legislature failed to enact the necessary legislation on the subject, but the people of my district have nevertheless plainly indicated to me that Hon. George C. Perkins was at the last election, and now is, their choice for the United States Senatorship.

Under these circumstances I feel in honor bound by my pledges to the people of the Tenth Senatorial District, to record the choice of a majority of the qualified electors thereof for Hon. George C. Perkins for United States Senator, hoping in so doing that it will never again be necessary for a member of the Legislature to vote the choice of the people of his district in this, or any other, indirect way, but that this Legislature will rise superior to partisanship and give to the people hereafter an opportunity, under suitable laws, to vote directly for candidates for that office. Should this Legislature fail in this high duty to the public, I trust that the people, in whom all power resides, will hereafter take up this matter in the way the people of the Tenth Senatorial District did two years ago, and thus be able in all legislative districts of the State to record their choice for the exalted office of United States Senator.

A. CAMINETTI

#### REPORT OF HOLD-OVER COMMITTEE.

The following report of the legislative committee appointed by the Assembly of the thirty-seventh Legislature to examine into the management of the State Printing Office was submitted by Mr. Transue for the committee:

#### ON INVESTIGATION OF STATE PRINTING OFFICE.

SACRAMENTO, December 5, 1908.

*To His Excellency Governor JAMES N. GILLET and*

*To the Legislature of the State of California*

On March 9, 1907, the Assembly of the State of California, by resolution duly passed, provided for the appointment of a committee of five of its members whose duty it should be to examine into, and report upon, any and all matters in any way connected with or pertaining to the management and conduct generally by the Superintendent of State Printing, of the business and affairs of the State Printing Office. Also to examine into and report upon the methods pursued by the Superintendent of State Printing in the purchase of supplies, equipment and material for the use of his office, with a view of ascertaining whether in the purchase of such supplies and materials the best interests of the State were subserved, etc.

The full text of the resolution is as follows:

*Resolved*, That the Speaker of the Assembly be and he is hereby authorized and empowered to appoint a committee of five members to examine into and report upon all matters in any way connected with or pertaining to the management and conduct generally by the Superintendent of State Printing of the business and

affairs of the State Printing Office; also to examine into and report upon the methods pursued by said State Printer in the purchase of supplies, equipment and all necessary materials, with a view of ascertaining whether or not in the furnishing of such supplies and equipment the best interests of the State are subserved, to the end that the Department of State Printing will be enabled to furnish supplies of printing, binding, ruling, etc., to the various departments of the State at a reasonable compensation, and at figures which will compare favorably with the charges made for like work by private institutions.

*Resolved*, That the said committee be, and it hereby is, authorized and empowered to do any and all things necessary to have a full and complete investigation of the matters hereinabove enumerated, and to that end to employ all necessary clerical and expert assistance; to send for persons and papers, and to take all necessary means to procure the attendance of witnesses and testimony. Members of said committee are, and each of them is, hereby authorized to administer oaths; and all the provisions of Article VIII of Chapter II, Title I, and Part III of the Political Code of this State relative to the "attendance and examination of witnesses before the Legislature and committees thereof," applies to the committee appointed under this resolution, and the Sergeant-at-Arms of the Assembly is hereby authorized and directed to serve any and all subpoenas and orders, or other process, that may be issued by the chairman of said committee when directed to do so by the chairman.

*And be it further resolved*, That said committee report the result of its investigations and recommendations to the thirty-eighth session of the California Legislature; and that the said committee shall also report to the Governor of the State of California the result of its investigations and recommendations immediately upon the completion of its labors; and there is hereby appropriated out of any moneys in the State treasury not otherwise appropriated the sum of \$500 to pay the charges and costs to be incurred by the said committee to be appointed hereunder for clerical and other assistance and for fees of witnesses attending said investigation, and for other expenses connected with said investigation aside from the personal expenses of said committee, and the Controller is hereby directed to draw his warrant for \$500 in favor of the chairman of said committee, when appointed, and the Treasurer is hereby directed to pay the same for said purposes."

According to the provisions of this resolution, the Speaker of the Assembly appointed Assemblymen M. Estudillo, S. H. Beckett, N. W. Thompson, R. H. Jury, and George W. Root as such committee.

The undersigned, members of said committee, would respectfully report that such committee has conducted a thorough and impartial investigation of all the matters within the scope of the said resolution, in the course of which three sessions were held at the city of Sacramento. These sessions were public, attended by all the members of the committee as well as by Mr. Shannon, Superintendent of State Printing, and Judge Devine, his attorney.

The first session was called to order on August 19, 1907, and Mr. S. D. Pelton was then sworn as stenographer for the committee.

No written charges either against the Superintendent of State Printing or against his manner of conducting the office have ever been filed with or submitted to this committee. In a general way, it may be stated, that two accusations were sought to be proven. First, that the Superintendent of State Printing had secretly, without authority of law, and without notice, sold certain printing presses at a price far below their actual value, second, that through the influence of that official awards of bids to furnish material and supplies to the State Printing Office were made to favored persons or firms, such awards not being based upon the merit of their proposals or the interest of the State, but from corrupt motives and in utter disregard of both the letter and the spirit of the law and the rights of other bidders. In the course of the investigation a number of witnesses were summoned and examined. Among those were representatives of firms which had been unsuccessful bidders for the contract to furnish supplies and materials for the State Printing Office, employing printers of Sacramento, and officers of the typographical union of that city.

#### SALE OF PRINTING PRESSES

Four old presses and some other machinery were sold by the Superintendent of State Printing at private sale. In no case, however, was any such sale made without the previous authorization of the State Board of Examiners. While the prices realized were low, it was shown by the testimony that the presses had been used for many years, were of slow speed and wholly unfitted to form any part of the equipment of a modern, efficient plant. It also appeared from the testimony that the prices realized were approximately the fair market value of the articles sold.

#### AWARD OF CONTRACTS FOR SUPPLIES.

Under the provisions of the Political Code the Superintendent of State Printing is required annually to submit an estimate of quantities and samples of materials that will be needed during the next year to the Board of Examiners, which board then authorizes him to invite, by public advertisement, the submission of bids for furnishing such materials. The Superintendent and Board of Examiners, acting as a Board of Award, receive and examine the bids which are submitted in pursuance to the advertisement and determine the awards.

Your committee took the testimony of members of the State Board of Examiners and examined their records with respect to these awards, in addition to hearing the representatives of firms which had submitted bids for supplies. From all of the evidence given and the facts disclosed to the committee, it appeared conclusively that the Board of Award had complied strictly with the provisions of the law. No evidence was submitted showing or tending to show that any collusion or undue influence had been used, or that the Superintendent of State Printing had any part in the acceptance or rejection of any bids so submitted, other than as one member of the Board of Award above mentioned.

The committee has had the cordial support and cooperation of the Governor throughout this work, and by his direction a portion of the Secret Service Fund of the State was expended in the investigation.

#### COST OF PRINTING, ETC

Your committee would call attention to the provisions of Section 531 of the Political Code, to the effect that the Superintendent of State Printing shall at no time pay compositors, pressmen or assistants, a higher rate of wages than is paid by those employing printers in Sacramento for like work. It appears from the testimony taken by this committee and also from the reports of previous investigating committees, notably that of 1901, that the rate of wages paid in the State Printing Office is, and for a number of years past has been, considerably in excess of the commercial rate in Sacramento, for the same class of labor. This plain provision of the Code seems to have been entirely ignored. This also constitutes one of the reasons that the cost of printing in the State Printing Office has generally been greater for similar work than in private establishments.

Since 1903 a considerable amount has been appropriated for and expended in the purchase of new and improved machinery and labor-saving devices for use both in the composing room and bindery, with the result that the cost of turning out finished work has been reduced. In view of the increasing volume of business in the office, and in order to provide for economically handling the business of the next legislative session further purchases of machinery should be made. During the period covered by this investigation, substantial reductions have been made by the Superintendent of State Printing in the prices charged by him to the different departments for the work required by them of his office. This is illustrated by tables which appear later in this report.

To give a general idea of the cost of the State Printing Office, we will take the Controller's report for the years 1906-7, which cost \$1,335 for 1,000 copies. His report consisted of 188 pages, and no doubt was a difficult piece of work to do. However, the testimony of witnesses taken during the session of the committee, for instance, that of Mr. Hassett, showed that it would cost at least from \$1,200 to \$1,500 for a private concern to print the same.

Incidentally the committee wishes to state that it was a most difficult matter to secure testimony in reference to the comparative cost of printing, from printers in Sacramento and San Francisco, the witnesses claiming that it was hard for them to give an estimate of the cost for the simple reason that they had not seen the original copy, and knew nothing of the amendments that might have been made to the original copy.

Another instance that would give an idea of the cost of printing is a reference to Assembly Bill 975, known as the "General Appropriation Bill." This bill cost a total of \$174.30 for nine printings. The bill contained 23 pages, and the estimate of the cost is given as follows:

These two are picked up as instances of the charges in the State Printing Office that seem to be high. However, in justice to the Superintendent of State Printing it must be said that he has succeeded in making some material reductions in the cost of printing, and that, in one instance, at least, the report of the Secretary of State, the cost is reduced more than one half. The Superintendent of State Printing attributes this reduction to the use of Mergenthaler machines, in the making of the report, whereas in 1906 the work was done by hand. The list follows.

According to the State Controller a comparison of the total expenditures of the State Printing Office for five years last past averages about the same as for five years previous to 1898, and the figures of the State Controller show that a large portion of the expenditures is attributable to the cost of manufacturing school text-books and less to general printing.

1907-8 .....	230,191 85	131,139 21	99,052 64
Total for five years.....	\$1,413,517 94	\$693,772 58	\$719,745 36
Average for five years.....	282,703 58	138,754 51	143,949 07

To give the public a general idea of the wages paid by the State Printing Office the following table is given:

Deputy State Printer .....	\$2,400 00	per year
Bookkeeper .....	1,980 00	per year
Stenographer .....	1,080 00	per year
Copy Editor .....	1,800 00	per year
General Foreman .....	225 00	per month
Bookkeeper .....	125 00	per month
Foreman, bindery .....	175 00	per month.
Foreman, pressroom .....	175 00	per month
Assistant Foreman, pressroom .....	30 00	per week.
Foreman, book room .....	36 00	per week.
Foreman, job room .....	36 00	per week
Foreman, electro department .....	36 00	per week
Timekeeper .....	150 00	per month
Watchman .....	100 00	per month.

To that table should be added: compositors are paid \$4.50 per day, pressmen \$4.50 per day, binders \$4 and \$4.50, printers and laborers \$3 to \$3.50 per day, and folders and sewers \$10 to \$12 a week.

It was a difficult matter to secure accurate information in regard to the wages and salaries paid by private concerns throughout the State, for the reason that they varied with the importance of the institution and the volume of business done, but it was generally conceded that the State Printing Office is the largest institution of its kind in the State. However, the committee secured some figures that may serve as a basis of comparison, to a certain extent. For instance: The testimony produced before the committee showed that general foremen were paid all the way from \$30 to \$45 per week, and in one instance—that of a firm in San Francisco, general foremen received from \$75 to \$85 per week; the foreman of the bindery \$6 per day, foreman of the pressroom \$30 per week, and linotype operators from \$5 to \$6 per day. The testimony showed also that compositors received a minimum wage \$22.50 per week, pressmen \$18 to \$30 per week, job compositors \$4 per day, finishers \$4 per day as a minimum and rulers \$4 per day as a minimum, and folders receive from \$8 to \$12 per week.

A schedule furnished by a large establishment in Los Angeles shows the following wages paid: Foreman of the composing room, \$7.50 per night, linotype operators \$6.30 per night of seven hours, make-up men and hand compositors an average of \$4 and \$5 per night of seven to eight hours, proof readers \$3.50 to \$5 per night of seven hours, copyholders \$2 to \$2.50 per night of seven hours, head machinist \$7 per night; assistant machinist \$3.50 to \$4.50 per night. In the press room and stereotype room, the foremen receive from \$6.50 to \$7.50 per night, journeymen receive from \$3.50 to \$5.00 per night. These men, of course, are the best and most efficient that can be secured in that establishment.

The same institution pays in its job room as follows Foreman \$5 per day, proof reader \$3, copyholders \$1.53, stone men and compositors \$3 to \$3.75, and in the bindery this institution pays the foreman \$5 per day, head finisher \$4, head forwarder \$3.33, forwarders, binders and rulers, \$2.50 to \$3, forelady of the folding, sewing, stitching and collating department, \$2.33, perforators, collators, etc., \$1 to \$1.66. In the pressroom the foreman is paid \$5.83, pressmen \$1.75 to \$3.33, porter \$1.16, electrotypers are paid \$4, bookkeeper \$4.50, assistant bookkeeper \$3.00, carpenters \$4.00.

## STATE SCHOOL BOOKS.

As about one half of the expenditure of the State Printing Office is incurred in the preparation of school books, any inquiry into the method of conducting that office would be incomplete unless this important item was taken into consideration. As the law provides that such books must be sold at cost, your committee devoted considerable time to ascertaining the method in use for determining such cost. The investigating committee of 1901 reported that by reason of errors in computation some of the books were then being sold for less than their actual cost, entailing, of course, a loss to the State. Improved machinery, since introduced, has materially reduced the cost of manufacture, but the selling price for the books remains the same. Your committee is of opinion that a more strict and thorough system of auditing and accounting should be installed in the State Printing Office, in order that the exact cost of each series of school books printed may be determined. It is evident from the following table furnished by the Superintendent of State Printing that books are being produced at a cost much below the selling price.

## STATEMENT OF ALL VALUES SCHOOL TEXT-BOOK DEPARTMENT OTHER THAN MACHINERY AND FIXTURES

	<hr/>	<hr/>
	\$137,671 10	\$345,544 08
Gain in 4½ years . . . . .	207,872 98	

In the opinion of this committee, one of two plans should be adopted: Either the present price of books (which in no case exceeds the price charged by private publishers for similar books) should be maintained and a fixed per cent of the income of the school book fund set aside until the original investment of over \$400,000 by the State has been repaid to the State, or the price to the school children should be reduced to actual cost of production.

Under our present system the State Board of Education adopts the school books. These books are written by various authors employed by Eastern book companies, and the copyrights and plates which are owned by book companies throughout the country, are reuted to the State of California. For these copyrights and the plates a royalty is paid by the State of California, as follows:

On the primer . . . . .	\$ 048
First reader . . . . .	.056
Second reader . . . . .	.072
Third reader . . . . .	.10
Fourth reader . . . . .	.12
First book of arithmetic . . . . .	.07
Grammar school arithmetic . . . . .	.13
English lessons, book 1 . . . . .	.08
English lessons, book 2 . . . . .	.12
Introductory history . . . . .	.15
Grammar school history . . . . .	.30
Introductory geography . . . . .	.125
Grammar school geography . . . . .	.28
Physiology and hygiene . . . . .	.12
Speller, book 1 . . . . .	.025

These royalties amount to a considerable sum of money, as will appear by the following: Royalties were paid from July 1, 1906, to June 30, 1907, to the American Book Company, \$36,017.45; McMillan & Co., \$3,780.49; D. C. Heath & Co., \$5,881.02, Ginn & Co., \$11,540.02. Total, \$57,218.98.

Of course this committee is not versed in the intricacies of our modern system of education, the science of writing text books or the art of adjusting royalties, but it appears that this is a big royalty for the children of California to pay for the privilege of using the book company's plates and copyrights. It would appear to us that some way ought to be devised to keep that money in the State of California. The committee found that useful and necessary changes are often made to the books furnished by the Text-book Committee. In saying this, the committee is cognizant

of the fact that it is claimed that when the books were written in California they were very inferior to the present text-books. The committee finds that the price of the school book to the child is controlled by the cost of printing by the Superintendent of State Printing, plus the royalty and postage. The number of books to be printed seems to be a mere matter of guess work thus far. In order to ascertain the number of books to be printed, the sale of books for the previous year, and the number of census children, are used as the basis to estimate the number of books to be ordered printed.

#### CHANGES SUGGESTED

We believe that there would be a material reduction in the cost of printing, of legislative bills, for instance, if some rule could be adopted by the Legislature of California such as the one existing in the State of Wisconsin. If every bill introduced in the House, before being read, should be referred to a committee on revision, the duty of which committee should be to ascertain whether the bill complied with the rules and statutory requirements, the committee having power to make corrections and recommendations as to the form of the bill, we believe it would save cost in printing; for the drawing of bills properly is difficult; we believe this will be acknowledged; ambiguities and errors creep frequently into a bill through the lack of experience and skill of the legislator, honest mistakes to be sure, but mistakes that in the end prove expensive to the State. The courts realize this, for the judges said, in one case at least (*In re Moffitt*, 85 Cal. Dec. 379), "For their ignorance they, and not the courts are responsible, and for their omissions they, and not the courts, must find a remedy."

We would suggest the adoption of the following rules as a means of saving expense in printing:

1 Minor clerical errors in any bill, memorial or resolution, such as errors in orthography or grammar, or the use of one word for another, as "affect" for "effect," wrong numbering or references, whether such errors occur in the original bill or in any amendment thereto, shall be corrected by the Chief Clerk as a matter of course upon the approval of the chairman of any committee to which the bill was referred.

2 The Chief Clerk shall insert the enacting or usual enabling clause in any bill before its passage if the same shall have been omitted.

3 Any corrections made by the clerk under this rule shall be noted by him upon the journal.

4 The adoption of a rule requiring every bill offered in either House before being read, to be announced and bulletined by the clerk, and then referred to a committee on revision, the duty of which committee shall be to see that the bill complies with the law in regard to form and then report the bill to the House if in proper form, otherwise to return the bill to the member offering the same.

#### FINDINGS.

Your committee submit the following findings as the result of their investigation:

1. That the maintenance of the State Printing Office is preferable to letting the work out by contract.

2. That the charges for the work have been gradually reduced.

3. That the best results can only be obtained by the installation of adequate modern machinery.

4. That the four linotype machines now owned by the State have not sufficient capacity to care for all of the legislative work, and that additional machines should be obtained sufficient to handle all of that class of work.

5. That competent compositors are not always available, but that operators for the linotype machine can ordinarily be obtained without difficulty.

6. That rumors of corruption, inattention to business and general inefficiency are untrue.

7. That a closer estimate of the cost of furnishing schoolbooks should be made.

8. That the selling price of most of the school books could be reduced.

9. That the plan of allowing to each department a specific sum for printing has been found to be productive of good results.

10. That the minimum wages paid to compositors and pressmen have been increased throughout the State, within the past two years. The establishment of the eight-hour day has also materially increased the cost of work.

#### RECOMMENDATIONS.

The committee would recommend:

1. That the system of making appropriations of fixed amounts to departments for printing should be continued.

2. That the price at which schoolbooks are sold should be adjusted.

3. That additional machinery including linotypes should be purchased for the State Printing Office.

4. That no sales of antiquated or unused machinery should be made unless previous public notice be given by advertisement for a reasonable period.

5. That the Legislature provide by the appointment of appropriate committees and a change of its rules for a system of revision of bills prior to their being printed. This, we believe, would result in a great saving to the State.

6. That a modern system of accounting and bookkeeping be installed in the State Printing Office.

## A WORD IN CONCLUSION.

In justice to Mr. Jury, the one member of the committee who does not sign this report, and to the other members, it should be stated that Mr. Jury, as a member of the committee, took a very active part in procuring evidence, particularly such as would be unfavorable to Mr. Shannon. Mr. Jury had every opportunity at hand to substantiate these charges, every clue given was investigated, every thread of evidence followed up to its source, every witness suggested by him or others subpoenaed and examined, but the result was an utter failure to prove any of the charges.

The records of the committee show that Mr. Jury was present when a motion was made to close the hearing, that he participated in the discussion, fully assenting to that plan, and voted in favor of the motion; that upon his motion a subcommittee was appointed to prepare the report and submit the same to the committee, he then stating that he would approve and sign the report to be so prepared. Subsequently he stated to the members of the committee that he would not join in the report and expressly refused to sign the same, declaring that he would prepare and submit a minority report.

A copy of the testimony taken accompanies this report.

Respectfully submitted

SAN FRANCISCO, January 9, 1909.

*To the Assembly State of California.*

HONORABLE SIR: We, the undersigned firms and business men of the City and County of San Francisco, do hereby petition you to pass the Walker-Otis Anti-Racetrack Gambling Bill.

The gambling feature of racing has grown into a gigantic evil, men and women afflicted by it become uncertain and untrustworthy in the course of business relations with their fellows.

A large percentage of the crimes committed, especially those involving the embezzlement of money, can be laid at the door of this form of gambling.

On its economic side, it is also harmful, hundreds of thousands of dollars goes to the support of parasites that would otherwise find its way into legitimate business channels.

Any institution which destroys the efficiency of thousands of men as useful citizens of the community and makes them substitute hazard and chance for honest efforts, has no right to exist. Racetrack gambling is responsible for this condition, and your honorable body should take the proper means to wipe it out.

(Signed -) IRWIN D. KUH, and others.

By Mr. Young:

A petition on Sunday rest law, signed by citizens of Berkeley.

By Mr. Melrose:

SANTA ANA, CAL., December 14, 1908.

*To Honorable RICHARD MELROSE, Assemblyman,*

*Orange County, Anaheim, California*

DEAR SIR: At a called meeting of the Orange County Medical Association held at the Carnegie Library in Santa Ana, December 8th, the matter of legislation to regulate the practice of medicine in this State, by the incoming Legislature, was fully discussed by all present.

After careful deliberation it was unanimously decided that the attitude of the society is in favor of non-interference with the existing laws as now in force.

The bill passed by the last Legislature was the result of careful consideration for the rights and privileges of the various medical schools, whose representatives are practicing in California, and was designed to elevate the standard of medical education, and secure competent and well-qualified practitioners of all schools to carry on the great work of the prevention and cure of disease in our State.

The eclectic, the homeopathic, the osteopathic, and the regular schools are all fully acknowledged and protected by this law, each school having its proportionate representation in the State Board of Medical Examiners, no one having a majority. All physicians desiring to engage in practice are required to pass the same examinations and show equal efficiency without regard to school or system.

Besides this, as showing the comprehensive nature of the law, the Act is so worded that no physician, even though not a member of either of the above designated schools, is barred thereby from the privileges of an examination (Sec. 6) or prevented from practicing any system, method, or mode whatever, if found competent.

We, therefore, members of the Orange County Medical Association, most respectfully solicit your cooperation and assistance in your legislative capacity for the main-

tenance of the highest standard of medical education possible, and in preventing any change of our present law.

Furthermore, we, as practitioners of the various other schools in practice in Orange County, endorse the above action of the Orange County Medical Society.

By Speaker Stanton:

SAN FRANCISCO, CAL., January 21, 1909.

*To the Honorable Speaker and Members of the Assembly of the Legislature of the State of California:*

We, of the Commercial Commission of the Chambers of Commerce who recently visited Japan, beg leave to protest against the passage of certain anti-Japanese legislation now pending before your honorable body, and as forcibly as possible to direct your attention to President Roosevelt's letter of January 16, 1909, to Governor Gillett, regarding said proposed legislation.

During our visit to Japan we paid particular attention to the question of Japanese emigration, and from what we ascertained we are strongly of the opinion that the Emperor and the government officials in Japan are acting in absolute good faith regarding the restriction of Japanese immigration to the United States.

We firmly believe that any action by the Legislature which is directed at the Japanese residents of this State will be taken as an affront by the entire Japanese nation.

The Oriental trade passing through the ports of this State has assumed large proportions, and is likely to be seriously crippled by such proposed action.

We therefore respectfully request that action on any of these bills which affect the Japanese people be deferred indefinitely, as being unwise and injudicious. Most respectfully submitted.

#### SPECIAL MESSAGE OF GOVERNOR JAMES N. GILLET.

The following message from the Governor was received and read, and ordered printed in the Journal:

EXECUTIVE DEPARTMENT, STATE OF CALIFORNIA.  
SACRAMENTO, January 25, 1909.

*To the Senate and Assembly of the State of California:*

There is certain legislation now pending before you which I believe to be of grave concern not only to our State but to the nation as well, and which should be most thoughtfully considered before being acted upon.

Ordinarily, I believe that there should be no executive interference with the will of the Legislature, nor any attempts made to influence it in the enactment of laws, because yours is a coordinate branch of the government and the people of this State, by their constitution, have delegated to you the power and authority of

enacting those laws which are to govern them, and have vested in the Executive only the power of veto and the right to recommend such matters as he may deem expedient.

The enactment of any law is a grave responsibility, and when you are considering measures which not only affect our own people, but which may affect the policies of the nation and involve it in trouble with a friendly power, then you are called upon to proceed with great caution, to weigh carefully every step taken and to do nothing but what your conscience and best judgment dictates, looking not only to the welfare of the State but to the interests of the General Government as well. And it is because I believe that you are now confronted with such a situation that I address this message to you, hoping that I may be able to help you to properly solve those matters to which I shall herein refer, expecting you to take such action as will appeal to your own judgment as to what is the right and proper thing to do under all the circumstances, both as it affects the State and nation.

Certain bills have been introduced, some of which have been favorably reported by your committees, indirectly intended to affect the Japanese people—at least, such is the impression abroad. These bills have attracted the notice of the whole nation and have caused Japan to call the attention of our Government to them. They have produced an agitation, not only in our own country, but throughout Japan, and the Japanese Minister of Foreign Affairs has stated to the authorities in Washington that if the bills should be passed the Government of Japan would consider it very embarrassing.

Before referring specifically to these bills, I wish to review what has been done between our Government and Japan toward stopping immigration to this country:

Bills were introduced in the 58th and 59th Congress to have the Chinese exclusion laws apply to the Japanese. This resulted in bringing before the State Department in Washington the question of the immigration of Japanese subjects to the United States.

The Japanese Government expressed a desire of settling the question by an agreement to be entered into between the two nations wherein Japan was to undertake that no Japanese laborers, skilled or unskilled, should leave Japan for the United States or for the Islands of Hawaii. In arriving at this agreement, much correspondence passed between the Minister of Foreign Affairs of Japan and Secretary Root, and finally a compact was concluded whereby Japan agreed to prevent certain classes of its citizens, therein named, from immigrating to this country. This agreement between the United States and Japan was mutual, and undoubtedly satisfactory to both nations, and Japan at once commenced to enforce it, and abide by its provisions and is now carrying out its terms.

The correspondence leading up to this agreement was shown to me by Secretary Root one year ago this winter when I was in Washington, and since that time his office has forwarded to me reports showing that the Japanese Government was complying with its part of the contract. The Japanese Foreign Office reports that during December, 1908, one hundred and twenty-six Japanese left Japan for the mainland of the United States, of whom sixty-two were returning emigrants or relatives; and that one hundred and seventy-four left Japan for Hawaii, of whom one hundred and fifty-one were returning emigrants or relatives. It is further stated in such report that eight hundred and twelve Japanese returned to Japan from the mainland of the United States during December, 1908, of whom seven hundred and fifteen were in the steerage; and that one hundred and ninety-five Japanese returned to Japan from Hawaii, of whom one hundred and ninety-three were in the steerage. In the month of December the Japanese leaving the United States for Japan exceeded those leaving Japan for the United States by six hundred and eighty-six. No laborer of Japan can leave his country without a passport, and, under the agreement with Japan, it will not issue a passport to any laborer to come to Hawaii or the mainland of the United States. Japan claims that it has the matter well in hand, that no Japanese laborers are coming to this country and that many are leaving. On the other hand it is contended that the Japanese population in this State is gradually increasing, but I know of no figures showing this to be true.

To-day the relations existing between the United States and Japan are very friendly. Both are great powers among the nations of the world. Both stand in a position, geographically, to dominate and control the commerce of the Pacific. Acting together, they can dictate the policies which other nations must pursue in the Far East and can preserve the peace there. As friendly allies, many benefits will inure to both nations, and a great commerce can be carried on between them to the advantage of our people; but, as enemies, the commerce of both can be driven from the ocean. Every reason, therefore, exists why there should continue between Japan and our Government the most friendly relations, and it is the expressed wish of each nation that this shall be so. Appreciating this friendship and their community of interests, both nations have attempted amicably to settle by an agreement the question of immigration, and Japan is now endeavoring to carry out its part. If the agreement does not go far enough; that is, if classes other than those enumerated therein should have been included, then our Government should make that fact known to Japan and ask to have them included and present its reasons therefor. If such reasons are good and sufficient, then in all fairness, and with a desire to do what is right, Japan will, no doubt, consent to the request made.

The question of immigration is one that affects the entire nation as well as our State, and is one which the Federal Government can alone settle. It may be settled in two ways—first, by an agreement between the two nations, which has been done, or by legislation passed by Congress, as was done in the case of the Chinese.

If we find out that, notwithstanding Japan's efforts, her coolie labor continues to pour into our State, or those calling themselves agriculturalists are landing upon our shores and settling in our cities, or leasing and purchasing our valuable agricultural lands, and changing white settlements to Japanese, to the detriment of this State and its citizens, then it is our plain duty to call the attention of our Government to the facts, and petition it to take such prompt action as may be proper, and, by an agreement with Japan, or by legislation, if necessary, to remedy conditions. If our complaints are just they will be taken up by Congress and the President and acted upon.

While the settlement of the questions of immigration are pending, we should do no act to embarrass those in authority at Washington, thereby making their task more difficult. We should be very careful about passing any legislation, not absolutely necessary for our immediate protection, intended solely to affect the Japanese people being lawfully among us, because in so doing we make the task which we expect our Government to perform harder to accomplish, and such legislation at the best can only tend to widen the breach between Japan and our country and cause a feeling of misgivings and distrust to exist. We must also remember that no law that this State can enact will stop Japanese immigration. Congress alone is vested with authority to pass such legislation. And we must also recognize the fact that the Japanese among us are the subjects of a friendly nation and are entitled to the same treatment under our laws and to the same privileges and immunities as are guaranteed to the subjects of the most favored nations. Japan's treaty with our Government guarantees to them this right, and, as citizens of these United States, we must accord it to them. There can not be one law for the subjects of Japan and another one for the citizens of England.

This brings me to a consideration of some of the bills now pending before you and which have already caused much discussion and alarm in both countries.

If you believe the general policy of this State and its future development demands that all aliens, that is, citizens of other countries, should be discouraged in making investments here, and that no alien should be permitted to become the owner in fee simple of any lands within this State—agricultural, grazing or mineral, or of any city property for the purposes of trade, commerce or manufacturing—then enact a law forbidding the same, but see to it that it affects the subjects of all nations alike, and that under its provisions the citizens of Japan shall have equal privileges with those of England and other favored nations. Otherwise you might create a situation which may prove to be embarrassing to the Federal Government. Mr. Drew's bill might be so amended, but in its present form it clearly, as no doubt was intended, discriminates against the citizens of China and Japan. Whether any bill should pass at this time which will discourage foreign capital from seeking investments in our State is a most serious question and one not lightly to be considered. But that is a question I leave for you to solve.

Another bill which you have under consideration, and which has been classed as anti-Japanese legislation, is a bill providing that no alien shall be a director in any corporation created under the laws of this State. This bill applies to all aliens as it should if it is to be enacted into law. How many citizens of foreign countries will care to come to California and form corporations for mining, transportation, commerce, manufacturing, banking or any other business, if they can not be directors so as to be able to handle their own money and direct the business in which they engage? What injury is the State now suffering by reason of Japanese directors, or what injury can it suffer by those who may hereafter become directors in a corporation, which will justify a law that no citizen of any foreign country can become a director of a corporation created under the laws of this State, though he may own the controlling interest in it? What public necessity, any way, exists for such a law? It is a very pertinent question, and one which should be most satisfactorily answered by its proponent.

Another measure which is clearly intended to reach the Japanese is one which gives to municipalities the right to set apart certain limits in which "undesirable persons" are to reside. It is not my purpose or desire, however, to discuss the merits of these several bills, or whether or not they should be enacted into laws. It is for you to decide these questions for yourselves and use your best judgment in the matter.

All I desire to do is to call your attention to the fact that the passage of these bills through the legislature, even though they may never finally become laws, will cause our Federal Government some embarrassment in relation to the agreement it now has with Japan, and its own good faith may be questioned. What we want is to have the question of immigration between these two nations settled amicably, but settled right. Both are earnestly striving to attain that end. Japan has agreed with our Government to do so in a certain way. At the present time she is busily engaged in carrying out her promise. This nation must accept her good faith until the contrary appears. If Japan fails in what she has undertaken she can not complain if our Government undertakes in its own way the task. By pursuing this course, the friendly relations existing between the two nations will not be broken and the great com-

merce now passing between them will continue to grow and the greatest benefits therefrom will be realized by the Pacific Slope.

The President of the United States and the Secretary of State have issued a warning against passing any bills of the nature proposed. Representing the nation and knowing the situation as they do, their warning should be heeded. This matter is one in which our interests are not alone involved, but one in which the whole country is interested.

The passage of all or any of the proposed bills will not prevent a single Japanese from landing here or cause one to leave the country. They will in no sense check immigration, or change the Japanese way of doing business or his manner of living. They can only tend to embarrass this nation in its dealings with Japan, and render future negotiations more difficult.

Whatever we shall attain in the way of restricting Japanese immigration must come to us through treaties entered into by the Federal Government, or through laws enacted by Congress.

Our efforts should be made through the proper channels, and we should prepare a statement of facts to support any petition we may present.

I would therefore recommend that a sufficient appropriation be made to enable the Labor Commissioner to take a census showing the number of Japanese now in the State, the number classed as laborers, and those classed as agriculturists, the number of acres of land owned by Japanese and the number of acres leased, and to get such other and further information as may be useful in making a proper report to the President of the United States and to Congress.

With such a census we can ascertain hereafter whether or not the Japanese population of this State is increasing or decreasing and whether or not they are extending their real property holdings.

I most respectfully submit this whole matter to your most careful and thoughtful consideration, hoping and believing that no mistakes will be made in the proper solution thereof, and that nothing may be done in the way of passing legislation which will tend to hereafter embarrass the representatives of our country in dealing with the nation of Japan concerning immigration matters.

J. N. GILLET.

RESOLUTIONS ADOPTED BY THE METHODIST MINISTERS ASSOCIATION ON  
JANUARY 18, 1909.

WHEREAS, There are now pending in both the Senate and the Assembly of the State bills providing that Sunday shall be set aside as a day of rest from labor, and

WHEREAS, We believe that such a law will result in great good to the laboring classes of the State, and that it will prove equally beneficial to the merchant class, by relieving both from the necessity of unremitting toil, and that it will prove morally profitable to all classes of society; therefore, be it

Resolved, That we, the San Francisco Methodist Ministers' Association, comprising the clergy of the Methodist Episcopal Church resident in the bay cities, and speaking most positively for more than six thousand members of our communion living in the bay cities, respectfully urge upon our legislators the passage of an efficient Sunday rest law.

ELBUT R. DILLIE, President.

G. M. RICHMOND, Secretary.

SAN FRANCISCO, CAL., January 18, 1909.

Also:

*To the State Senate of California:*

WHEREAS, This is the only state in the Union without a Sunday rest law; and  
 WHEREAS, This age of strenuous competition demands a weekly rest day;  
 Therefore, the undersigned, business and professional men and laborers, hereby earnestly petition your honorable body to enact a general Sunday rest law that will prohibit all lines of public business and labor, except works of real necessity and mercy and such private work as is not against the public welfare.

C. H. HOBBS (and others).

By Mr. Hammon:

LOS ANGELES, CAL., January 26, 1909.

*To the Honorable, the President and Members of the Senate and the Speaker and Members of the Assembly of the Legislature of the State of California:*

We, of the Commercial Commission of the Chambers of Commerce, who recently visited Japan, beg leave to protest against the passage of certain anti-Japanese legislation now pending before your honorable bodies, and as forcibly as possible to direct your attention to President Roosevelt's letter of January 16, 1909, to Governor Gillett, regarding said proposed legislation.

During our visit to Japan we paid particular attention to the question of Japanese emigration and from what we ascertained we are strongly of the opinion that the Emperor and the Government officials in Japan are acting in absolute good faith regarding the restriction of Japanese immigration to the United States.

We firmly believe that any action by the Legislature which is directed at Japanese residents of this State will be taken as an affront by the entire Japanese nation.

The Oriental trade passing through the ports of this State has assumed large proportions and is likely to be seriously crippled by such proposed action.

We therefore respectfully request that action on any of these bills which affect the Japanese people be deferred indefinitely, as being unwise and injudicious.

Most respectfully submitted.

A. C. BILICKE  
 S. I. MERRILL  
 J. J. BERGIN.  
 J. T. FITZGERALD.

The Board of Directors of the Los Angeles Chamber of Commerce unanimously approve of the action of the delegation, as set forth above.

FRANK WIGGINS, Secretary.

By Mr. Stanton:

RESOLUTION ADOPTED BY THE BOARD OF TRUSTEES OF THE CHAMBER OF COMMERCE OF SAN FRANCISCO, JANUARY 22, 1909.

WHEREAS, Certain bills have been introduced in the Legislature of the State of California that are inimical to the interests of the foreign residents of this State; and

WHEREAS, We are of the opinion that the enactment of Assembly Bills Nos 14, 15, 32 and 78, and Senate Bill No. 71, will unfavorably affect the growing commerce of the State of California; therefore, be it

Resolved, That the Board of Trustees of the Chamber of Commerce of San Francisco respectfully protests against the passage of said bills.

THE CHAMBER OF COMMERCE OF SAN FRANCISCO.

Attest

JAMES McNAB, President.  
 C. W. BURKS, Secretary.

Also:

WHEREAS, The Legislature of the State of California at its session in 1907 did enact a law intended to prevent trusts or combinations in restraint of trade, said law being commonly known as the "Cartwright Law;" and

WHEREAS, The terms of said law are so broad and sweeping as to prohibit any combination or action in unison between producers, manufacturers, growers, or dealers in the same product, and any pooling of losses and gains, or equalization of proceeds or returns of sales, or any understanding or agreement as to prices or increase or decrease of production of any article is by the terms of this Act clearly illegal; and a strict construction and enforcement of said Act would undoubtedly prohibit labor unions, and pools among farmers and growers for the better disposition and marketing of their crops, as well as the ordinary business arrangements and understandings common amongst merchants, business men, and professional men; and

WHEREAS, The two shingle associations of Humboldt County, doing a business strictly legal up to the time of the taking effect of this Act, found themselves in violation of that law, and not desiring to conduct an illegal business, ceased operating under their contracts over a year ago, with the result that each of the shingle mills of this county has been compelled to close for greater or less periods of time during the past year, depriving the men laboring therein of steady employment, and reducing the output of shingles of this county from over 830,000,000 in 1907, to less than 500,000,000 in 1908, with a net reduction in proceeds from sales of shingles of over a half million of dollars; and

WHEREAS, The said Act is so complicated in its terms as to be incapable of amendment to remove its defective features without practically invalidating it as an anti-trust law; therefore, be it

*Resolved*, That this Chamber of Commerce is heartily in favor of the repeal of the law known as the "Cartwright Law," and we hereby request and urge the Senator from the First District and the Assemblymen from Humboldt County to work and vote for its repeal, using all due effort and zeal to secure said result; and be it further

*Resolved*, That duly attested copies of these resolutions be forwarded to our State Senator and Assemblymen, and to Hon. J. N. Gillett, Governor of State for California.

Also:

WHEREAS, The Harbor Committee appointed by the Legislature of the State of California at its session held in 1907 has recommended an appropriation of \$25,000, for the purpose of dredging the "hogbacks," or shoal places in the principal channels of Humboldt Bay; and

WHEREAS, Said shoals in the used channels of said bay are a serious impediment to the full and free navigation of said channels, and vessels using the same are frequently delayed by reason of running aground in said channels; now, therefore, be it

*Resolved*, That the Humboldt Chamber of Commerce fully indorses the recommendation of the Legislative Harbor Committee in this matter, and urges the Legislature of the State of California to appropriate the sum of \$25,000 for the purpose of dredging the channels of Humboldt Bay, as recommended by the Legislative Harbor Committee, and be it further

*Resolved*, That attested copies of these resolutions be forwarded to our Senator and Assemblymen, to the Speaker of the Assembly, and to the Governor and Lieutenant-Governor of the State of California

WHEREAS, Various harbors of the State of California are from time to time in need of dredging in their interior channels for the accommodation of the varying demands of their commerce; and

WHEREAS, The prosecution of such necessary work would be very much aided if the State of California were in possession and ownership of a seagoing dredge, available for use at each of the ports of this State; now, therefore, be it

*Resolved*, That the Legislature of the State of California is hereby requested to make provision for the prompt construction of a seagoing dredge, suitable to perform the work of dredging at each of the harbors of this State; and be it further

*Resolved*, That attested copies of these resolutions be forwarded to our Senator and Assemblymen, to the Speaker of the Assembly, to the Governor and Lieutenant-Governor of the State of California, and to Senator Leroy A. *Resolved*, That the Traffic Bureau of the Merchants' Exchange hereby petitions the Legislature of the State of California, now in session, to make an appropriation to be promptly expended in improving conditions of the San Joaquin and Sacramento rivers so as to assist in preventing a repetition of the very serious flood damage that has recently proved so disastrous to the people of the Sacramento and San Joaquin valleys.

*Resolved*, That the Traffic Bureau does strongly favor the General Government granting and extending every assistance to private enterprise, whether same be by subsidy or otherwise.

*Resolved*, That copies of this resolution be sent to presiding officers in the Senate and Assembly of the State of California and to the Governor.

*Amendment Number Seven*

That said charter shall be amended by adding thereto a new section which shall be numbered Section 174a, and shall be and read as follows

SEC. 174a. The basis of the percentage hereinafter provided for any petition shall be the total number of voters registered in the city at the last preceding general election prior to the filing of said petition; and all voters registered at said general election or thereafter shall be qualified to sign the petition herein provided for

Upon presentation to the city council of a petition or petitions signed by the qualified electors of the city, in number equal to ten per cent of said registration, asking for submission to the electors of a measure fully set forth in said petition or petitions, being a measure that the city council might itself adopt, it must either enact such measure without alteration, or submit the same to the electorate at the next regular city election occurring subsequent to sixty days after the filing of said petition or petitions. But if such petition or petitions are signed by qualified electors in number equal to twenty per cent of said registration, then such measure if not enacted by the city council must be submitted to the electorate at a special election to be called within sixty days from the filing of such petition or petitions. If such proposed measure is a measure that the city council might adopt, except for the fact that it involves the repeal or amendment of a measure adopted by the electorate as herein provided, and if in such case said petition or petitions are signed by qualified electors in number equal to twenty-five per cent of said registration, then such proposed measure must be submitted to the electors of the city at the next regular city election, occurring subsequent to sixty days after the filing of said petition or petitions. The method of signing and presenting petitions provided for herein shall be as follows:

The signatures to the petition need not all be appended to one paper, but each signer shall add to his signature his place of residence, giving the street and number. Each such paper shall have attached thereto the affidavit of a registered voter of the city, stating that all the signatures to the paper were made in his presence, and that to the best of his knowledge and belief, each signature to the paper appended is the genuine signature of the person whose name purports to be thereunto subscribed. Within twenty days from the date of filing such petition in his office, the city clerk shall examine and from the great register and affidavits of registration ascertain whether or not said petition is signed by the requisite number of qualified electors, and if necessary the city council shall allow him extra help for the purpose, and he shall attach to said petition his certificate, showing the result of his examination. Each signature whose genuineness is not called in question by the sworn affidavit of the owner thereof shall be assumed to be genuine. If, by the clerk's certificate the petition is shown to be insufficient, it may be amended within ten days from the date of said certificate. The clerk shall within twenty days after such amendment, make like examinations of the amended petition, and if his certificate shall show the same to be insufficient, it shall be returned to the person filing the same, without prejudice, however, to the filing of a new petition to the same effect. If the petition shall be found sufficient, the clerk shall submit the same to the city council without delay. Any number of proposed measures may be voted upon at the same election in accordance with the provisions of this section; *provided* that there shall not be held under this section more than one special election in any period of six months. Whenever any measure is required or authorized by this charter to be submitted to the electors of the city, at any election, the city clerk shall cause the measure to be printed, and he shall enclose a printed copy thereof in an envelope and mail the same to each voter, at least ten days prior to the election, but the city council may order such measure to be printed in the official newspaper of the city, and published in a like manner as ordinances adopted by the city council are required to be published; and may order that such publication shall take the place of the printing and mailing of the measure as first above provided.

Ordinances and measures in connection with local improvements, the expenses whereof are defrayed by special local assessments, shall not come within the operation of this section.

If a majority of votes cast on any ordinance or measure submitted to the electorate, as provided in this section, shall be in favor thereof it shall go into effect as a valid and binding ordinance or measure of the city, ten days after the official count shall

be determined; otherwise such ordinance or measure shall be rejected. No ordinance or measure approved by the electorate, under the provisions of this section shall be subject to veto, and any amendment or repeal of such ordinance by the city council shall be subject to the referendum provided in this section.

In the event action by the council in calling any election as aforesaid shall for any reason be delayed, then such election may be called by the council to be held not less than thirty days nor more than forty days from the date of the ordinance calling the same. If the provisions of two or more measures, approved and adopted at the same election under the provisions of this charter, conflict, then the measure receiving the highest affirmative vote shall control.

*Amendment Number Eight.*

That said charter shall be amended by inserting therein a new section to be numbered Section 174b which shall read as follows

SEC. 174b. The basis of the percentage hereinafter provided for any petition shall be the total number of voters registered in the city at the last preceding general election prior to the filing of said petition; and all voters registered at said general election or thereafter shall be qualified to sign the petition herein provided for

Any measure that the city council, or the electorate of the city as herein provided, has authority to adopt, the city council may of its own motion submit to a vote of its constituent electors at a general or special election.

Except as herein provided, no penal ordinance or measure, no ordinance or measure granting any franchise or privilege, and no ordinance or measure making or authorizing any contract (except contracts for improvements, the expenses whereof are defrayed by special local assessment, and contracts where the subject-matter involved is of less value than \$1000) passed by the city council, shall go into effect in less than thirty days after its final passage. But ordinances and contracts declared by the city council to be necessary as emergency measures for the immediate preservation of the public peace, health, or safety, passed by a three-fourths vote of the city council, and not obligating the city for a longer period of time than one year, may go into effect at the will of the city council, or as otherwise provided by law. If within said thirty days a petition or petitions signed by qualified electors of the city in number equal to ten per cent. of said registration, if filed with the city clerk, asking that any penal ordinance or measure, any ordinance or measure granting any franchise or privilege, or making or authorizing any contract (except contracts for improvements, the expenses whereof are defrayed by special local assessment, and contracts where the subject-matter involved is of less value than \$1000) adopted by the city council be submitted to the electorate, then such ordinance or measure must either be repealed or submitted to the electors for approval or rejection at the next regular city election occurring subsequent to sixty days after the filing of said petition or petitions, or at a special election called prior to such regular city election, and if such ordinance or measure has not gone into effect before the filing of such petition or petitions, and said petition or petitions are signed by qualified electors of the city in number equal to fifteen per cent of said registration, then such ordinance or measure shall not go into effect until and unless adopted at such election, and no ordinance or measure once so submitted shall be again so submitted, except by a vote of the city council, or on a petition signed by twenty-five per cent of said registration.

The signatures to the petition need not all be appended to one paper, but each signer shall add to his signature his place of residence, giving the street and number. Each such paper shall have attached thereto the affidavit of a registered voter of the city, stating that all the signatures to the paper were made in his presence, and that to the best of his knowledge and belief each signature to the paper appended is the genuine signature of the person whose name purports to be thereunto subscribed. Within twenty days from the date of the filing such petition in his office, the city clerk shall examine and from the great register and affidavits of registration, ascertain whether or not said petition is signed by the requisite number of qualified electors, and if necessary the city council shall allow him extra help for the purpose, and he shall attach to said petition his certificate, showing the result of said examination. Each signature whose genuineness is not called in question by the sworn affidavit of its owner thereof shall be assumed to be genuine. If by the clerk's certificate the petition is shown to be insufficient, it may be amended within ten days from the date of said certificate.

The clerk shall within twenty days after such amendment, make like examination of the amended petition, and if his certificate shall show the same to be insufficient it shall be returned to the person filing the same, without prejudice, however, to the filing of a new petition to the same effect. If the petition shall be found sufficient, the clerk shall submit the same to the city council without delay. Any number of proposed measures may be voted upon at the same election, in accordance with the provisions of this section, *provided*, that there shall not be held under this section more than one special election in any period of six months.

Whenever any measure is required or authorized by this charter to be submitted to the electors of the city, at any election, the city clerk shall cause the measure to be printed, and he shall enclose a printed copy thereof in an envelope and mail

the same to each voter, at least ten days prior to the election, but the city council may order such a measure to be printed in the official newspaper of the city, and published in like manner as ordinances adopted by the council are required to be published; and may order that such publication shall take the place of the printing and mailing of the measure as first above provided.

If a majority of the votes cast on any ordinance or measure referred as provided in this section to the electors of the city, shall be in favor thereof, it shall if not already in effect, go into effect as a valid and binding ordinance or measure of the city, ten days after the official count shall be determined, otherwise such ordinance or measure shall be repealed or rejected; such repeal shall take effect ten days after the official count shall be determined. No ordinance or measure approved by the electorate under the provisions of this section shall be subject to veto; and any amendment or repeal of such ordinance by the city council shall be subject to the referendum provided in this section. In the event action by the council in calling any election as aforesaid shall for any reason be delayed, then such election may be called by council to be held not less than thirty nor more than forty days from the date of the ordinance calling the same.

If the provisions of two or more measures approved and adopted at the same election, under the provisions of this charter, conflict, then the measures receiving the highest affirmative vote shall control.

#### *Amendment Number Nine.*

That said charter shall be amended by adding thereto a new section which shall be numbered Section 174c and which shall be and read as follows:

SEC. 174c. The holder of any elective office may be removed at any time by the electors entitled to vote for a successor of such incumbent. The procedure to effect the removal of an incumbent of an elective office shall be as follows: A petition signed by electors entitled to vote for a successor of the incumbent sought to be removed, equal in number to at least twenty-five per cent of the entire vote for all candidates for office, the incumbent of which is sought to be removed, cast at the last preceding general municipal election, demanding an election of a successor of the person sought to be removed, shall be addressed to the council and filed with the city clerk, and said petition shall contain a general statement of the grounds for which the removal is sought, which statement is intended solely for the information of the electors, and the sufficiency of which shall not be open to review. The signatures to the petition need not at all be appended to one paper, but each signer shall add to his signature his place of residence, giving street and number. Each such paper shall have attached thereto the affidavit of a registered voter of the city, stating that all the signatures to the paper were made in his presence, and that to the best of his knowledge and belief, each signature to the paper appended is the genuine signature of the person whose name purports to be thereunto subscribed. Every signature appended to any of the papers forming such petition shall be deemed and treated by the city clerk for the purpose of his examination of such petition herein provided, as the genuine signature of the person whose name it purports to be, unless such person, during the period of such examination, files with the city clerk an affidavit to the contrary. Within ten days from the date of filing such petition the city clerk shall examine and ascertain from the great register or from the affidavits or duplicate affidavits of registration, or from either, whether or not said petition is signed by the requisite number of electors entitled to vote, and if necessary the council shall allow him extra help for that purpose, and he shall attach to said petition his certificate stating that he finds the petition to be sufficient or insufficient, as the case may be. If, by the clerk's certificate, the petition is shown to be insufficient, it may be amended within ten days from the date of said certificate. The clerk shall, within ten days after such amendment, make like examination of the amended petition, and if his certificate shall show the same to be insufficient, it shall be returned to the person filing the same without prejudice, however, to the filing of a new petition to the same effect. If the petition shall be found to be sufficient, the clerk shall submit the same to the council without delay, and the council shall thereupon order and fix a date for holding the said election not less than thirty days nor more than forty days from the date of the clerk's certificate to the council that a sufficient petition is filed.

The sufficiency or insufficiency of said petition shall, except as to the grounds for removal therein stated, be subject to judicial review, but not to review by the council. In the event action by the council in calling said election shall for any reason be delayed, then such election may be called by the council to be held not less than thirty nor more than forty days from the date of the ordinance calling the same.

The city council shall make or cause to be made publication of notice, and all arrangements for holding of such election and the same shall be conducted, returned and result thereof declared, in all respects as other city elections. The successor of any officer so removed shall hold office during the unexpired term of his predecessor. Any person sought to be removed may be a candidate to succeed himself, and, unless he requests otherwise, in writing, the clerk shall place his name on the official ballot without nomination. In any such removal election the candidate

receiving the highest number of votes shall be declared elected. At such election if some other person than the incumbent receives the highest number of votes, the incumbent shall thereupon be deemed removed from office upon qualification of his successor. In case the party who receives the highest number of votes should fail to qualify within ten days after receiving notification of election, the office shall be deemed vacant. If the incumbent receives the highest number of votes he shall continue in office.

That the said nine proposed amendments were, and each of them was, published for twenty days in a daily newspaper printed and published in said city and of general circulation, to wit, "The Morning Press," and that said publication ended on the 25th day of October, 1907.

That thereafter the city council of said city did, by ordinance No. 594, which was duly adopted on the 7th day of November, 1907, and approved by the mayor on the 8th day of November, 1907, order the holding of a general municipal election in said city of Santa Barbara, on the 3d day of December, 1907, which last named date was at least forty days after the publication of said proposed amendments which had been published twenty days as aforesaid, and did provide in said ordinance for the submission of said nine proposed amendments, hereinabove set forth, to the city charter to the qualified electors of said city for their ratification at said general municipal election, which said ordinance was passed and approved as aforesaid and was published as required by law and the charter of said city.

That at said election a majority of the qualified electors voting thereon voted in favor of the ratification and did ratify each and all of said nine proposed amendments to the charter of said city of Santa Barbara, except such proposed amendments numbers one and two; and that said proposed amendments numbers one and two did not receive a majority of the votes of the qualified electors voting thereon in favor of the ratification of said proposed amendments at said election.

That the city council of said city of Santa Barbara, at a special meeting, and within ten days after said election, and within the time and in the manner required by law and the charter of said city, duly canvassed the returns of said election, and duly found, determined and declared that a majority of such qualified electors voting thereon had voted for and ratified each and all of the said nine proposed amendments to said charter, except the said numbers one and two.

We do further hereby certify and declare that the copy of said proposed amendments to the charter of the city of Santa Barbara hereinbefore set forth is a full, true and correct copy of the said seven certain proposed amendments to the charter of said city of Santa Barbara, which were, in the manner prescribed by law, submitted to the qualified electors of said city for their ratification and by them ratified at the general municipal election duly called and held in said city on the 3d day of December, 1907.

Upon request of Mr. Drew Assembly Bill No. 78 was taken up for consideration.

Assembly Bill No. 78—An Act to regulate the ownership or possession of land by aliens.

During the third reading of the bill, Mr. Drew moved that the Speaker appoint a select committee of one to amend the bill, as follows:

Strike out all after the enacting clause and insert:

SECTION 1. No alien shall acquire title to or own land in the State of California except as hereafter provided, but he shall have and enjoy in the State of California such rights as to personal property as are or shall be accorded a citizen of the United States under the laws of the nation to which such alien belongs, or by the treaties of such nation with the United States, except as may be affected by the provisions of this Act.

SEC. 2. This Act shall not apply to lands now owned in this State by aliens so long as they are held by the present owners.

SEC. 3. All aliens who may hereafter acquire real property in California by devise, descent, or purchase may hold the same for five years from the date of so acquiring such title. If any alien at the time of acquiring title to lands situate in this State be under the age of twenty-one years, he may hold title to the same for five years after the time he becomes twenty-one years of age.

SEC. 4. Any alien who shall hereafter hold lands in the State of California in contravention of the provisions of this Act, may nevertheless convey the fee simple title thereof at any time before the institution of escheat proceedings as hereinafter provided; *provided, however*, that if any such conveyance shall be made by such alien either to an alien or to a citizen of the United States in trust, and for the purpose and with the intention of evading the provisions of this Act such conveyance shall be null and void and any such lands so conveyed shall be forfeited and escheated to the State of California absolutely, for the benefit and use of the public school funds.

SEC. 5. It shall be the duty of the district attorney of the county wherein the land is situate or the Attorney General of the State, should the district attorney fail or neglect to act, when he shall be informed or have reason to believe that any lands in the State are being held contrary to the provisions of this Act, to institute suit in behalf of the State of California in the Superior Court of the county in which said lands are situate praying for the escheat of the same in behalf of the State, and he shall proceed therein as in cases provided by law for escheats of lands or property where such property has no known owner; *provided*, that due service of process shall be made and service upon the holder of title be had as provided by law, and the court having jurisdiction shall then proceed to final judgment and the sale of the property as sales are conducted under foreclosure. It shall be a good defense to any such proceeding that such alien had become a citizen of the United States or that the title to such lands had been conveyed in good faith by such alien immediately to a citizen of the United States, or if such alien has deceased prior to the time of the commencement of such proceedings that his heirs or devisees or any person claiming by, through or under them, are or had become citizens of the United States. Said court shall tax as costs such fees as shall be reasonable, not exceeding twenty per centum of the amount which shall be bid for such lands at any such sale thereof, and shall allow to the officer making such sale the same fees as are allowed for the sale of lands under decree of foreclosure of mortgages, and all fees and costs shall be paid out of the proceeds by sale of such real estate. If any district attorney shall neglect or refuse to proceed by information as herein provided within thirty days after it shall be brought to his notice that an alien is holding title to lands in this State contrary to the provisions of this Act, then any citizen may proceed by information in the name of the people of the State in the same manner as such district attorney might have proceeded under the provisions of this section, and he and his attorney may be allowed such reasonable fees for their services, to be taxed as costs, as the court may direct, not exceeding in the aggregate twenty per centum of the amount which shall be paid for such lands at the sale thereof.

SEC. 6. In case the lands at the time escheat proceedings are about to be commenced are owned by a minor or minors or by a person or persons of unsound mind the process herein provided shall be served as provided by law upon the guardian of the minor or minors or person or persons of unsound mind, and if there is no such guardian, the district attorney or the Attorney General of the State shall make application in the name of the people of the State to the court having jurisdiction, and procure the appointment of a guardian *ad litem*, to represent such minor or minors or person or persons of unsound mind in such proceedings, and such guardian or guardians *ad litem* shall appear and defend the action.

SEC. 7. If it shall be determined upon the trial of any such proceedings that lands are held contrary to the provisions of this Act, the court trying such cause shall render judgment condemning such lands and ordering the same to be sold under an order of court as in cases of sale under foreclosure proceedings; the proceeds of such sale, after deducting the cost of the proceeding, shall be paid to the clerk of the court rendering the judgment, where the same shall remain for one year from the date of such payment, subject to the order of the alien owner of such lands, his heirs and legal representatives, and if not claimed within the period of one year such clerk shall pay the same into the treasury of the State for the benefit of the available school funds of the State; *provided*, that when any money shall have been paid to the State treasury as herein provided the alien or his heirs may procure the same to be returned by applying for and procuring an order from the court condemning the property, showing that such judgment escheating such property was procured by fraud or mistake, or that there was material irregularity in the proceedings; this application, however, must be made within two years from the date such moneys were turned over to the State treasury; *provided, further*, that in no event shall the State be liable or called upon to refund any further sum than the actual cash transmitted and delivered to such treasury.

SEC. 8. No contract, agreement or lease of agricultural land for a longer period than one year, or of municipal property for a longer period than two years, shall be made to any alien, and any lease, agreement or devise of real estate made to any alien contrary to the provisions of this section shall be null and void.

SEC. 2. This Act shall not apply to lands now owned in this State by aliens so long as they are held by the present owners.

SEC. 3. All aliens who may hereafter acquire real property in California by devise, descent, or purchase may hold the same for five years from the date of so acquiring such title. If any alien at the time of acquiring title to lands situate in this State be under the age of twenty-one years, he may hold title to the same for five years after the time he becomes twenty-one years of age.

SEC. 4. Any alien who shall hereafter hold lands in the State of California in contravention of the provisions of this Act, may nevertheless convey the fee simple title thereof at any time before the institution of escheat proceedings as hereinafter provided, *provided, however*, that if any such conveyance shall be made by such alien either to an alien or to a citizen of the United States in trust, and for the purpose and with the intention of evading the provisions of this Act, such conveyance shall be null and void and any such lands so conveyed shall be forfeited and escheated to the State of California absolutely, for the benefit and use of the public school funds.

SEC. 5. It shall be the duty of the district attorney of the county wherein the land is situate or the Attorney General of the State, should the district attorney fail or neglect to act, when he shall be informed or have reason to believe that any lands in the State are being held contrary to the provisions of this Act, to institute suit in behalf of the State of California in the Superior Court of the county in which said lands are situate praying for the escheat of the same in behalf of the State, and he shall proceed therein as in cases provided by law for escheats of lands or property where such property has no known owner; *provided* that due service of process shall be made and service upon the holder of title be had as provided by law, and the court having jurisdiction shall then proceed to final judgment and the sale of the property as sales are conducted under foreclosure. It shall be a good defense to any such proceeding that such alien had become a citizen of the United States or that the title to such lands had been conveyed in good faith by such alien immediately to a citizen of the United States, or if such alien has deceased prior to the time of the commencement of such proceedings that his heirs or devisees or any person claiming by, through or under them, are or had become citizens of the United States. Said court shall tax as costs such fees as shall be reasonable, not exceeding twenty per centum of the amount which shall be bid for such lands at any such sale thereof, and shall allow to the officer making such sale the same fees as are allowed for the sale of lands under decree of foreclosure of mortgages, and all fees and costs shall be paid out of the proceeds by sale of such real estate. If any district attorney shall neglect or refuse to proceed

by information as herein provided within thirty days after it shall be brought to his notice that an alien is holding title to lands in this State contrary to the provisions of this Act, then any citizen may proceed by information in the name of the people of the State in the same manner as such district attorney might have proceeded under the provisions of this section, and he and his attorney may be allowed such reasonable fees for their services to be taxed as costs, as the court may direct, not exceeding in the aggregate twenty per centum of the amount which shall be paid for such lands at the sale thereof.

SEC. 6. In case the lands at the time escheat proceedings are about to be commenced are owned by a minor or minors or by a person or persons of unsound mind the process herein provided shall be served as provided by law upon the guardian of the minor or minors or person or persons of unsound mind, and if there is no such guardian, the district attorney or the Attorney General of the State shall make application in the name of the people of the State to the court having jurisdiction, and procure the appointment of a guardian *ad litem*, to represent such minor or minors or person or persons of unsound mind in such proceedings, and such guardian or guardians *ad litem* shall appear and defend the action.

SEC. 7. If it shall be determined upon the trial of any such proceedings that lands are held contrary to the provisions of this Act, the court trying such cause shall render judgment condemning such lands and ordering the same to be sold under an order of court as in cases of sale under foreclosure proceedings; the proceeds of such sale, after deducting the cost of the proceeding, shall be paid to the clerk of the court rendering the judgment, where the same shall remain for one year from the date of such payment, subject to the order of the alien owner of such lands, his heirs and legal representatives, and if not claimed within the period of one year such clerk shall pay the same into the treasury of the State for the benefit of the available school funds of the State; *provided*, that when any money shall have been paid to the State treasury as herein provided the alien or his heirs may procure the same to be returned by applying for and procuring an order from the court condemning the property, showing that such judgment escheating such property was procured by fraud or mistake, or that there was material irregularity in the proceedings; this application, however, must be made within two years from the date such moneys were turned over to the State treasury; *provided, further*, that in no event shall the State be liable or called upon to refund any further sum than the actual cash transmitted and delivered to such treasury.

SEC. 8. No contract, agreement or lease of agricultural land for a longer period than one year, or of municipal property for a longer period than two years, shall be made to any alien, and any lease, agreement or devise of real estate made to any alien contrary to the provisions of this section shall be null and void.

#### GOVERNOR'S MESSAGE

The following message from the Governor was taken up and read:

#### SPECIAL MESSAGE

EXECUTIVE DEPARTMENT, STATE OF CALIFORNIA.

*To the Senate and Assembly*

GENTLEMEN: Believing that there should be a further and more careful consideration of Assembly Bill No. 14, which provides that boards of school trustees shall have the power to establish separate schools for children of Japanese, and that thereafter they shall not be admitted into any other public school, and further believing that the enactment of provisions of said bill will at this time affect the interests of the entire nation, and perhaps seriously, I most respectfully request you to reconsider the vote by which said bill was passed, and take the matter up for further and most careful consideration.

Within a few hours after the passage of said bill the President of the United States, alarmed at the possible consequences of the enactment of such a law, sent to me a telegram containing the following language:

"This is the most offensive bill of all, and in my judgment is clearly unconstitutional, and we should at once have to test it in the courts. Can it not be stopped in the Legislature or by veto?"

A telegram so forcible as this, coming from the President of the United States, is entitled to full consideration, and demands that no hasty or ill-considered action be taken by this State, which may involve the whole country. It seems to me that it is time to lay sentiment and personal opinion and considerations aside and take a broad and unprejudiced view of the important questions involved in the proposed legislation, and in a calm and dispassionate manner pass upon them, keeping in mind not only the interests of our State but of the nation as well, and the duty we owe to it in observing the treaties entered into by it with a friendly power.

Two years ago the question now under consideration engaged the attention of our Government and Japan, because of a resolution adopted by the Board of Education of San Francisco, directing that all Chinese, Japanese, and Korean children be sent to the Oriental public schools. Japan at once called the attention of our Government to this resolution, which it claimed discriminated against its subjects and in violation of its treaty. It contended that the admission of alien children of other foreign countries into the public schools of San Francisco and the denial of that right to the children of its citizens residing there, constituted a denial to them of the privileges, liberties, and rights relating to the rights of residence accorded to the subjects and citizens of the most favored nation. Our Government acquiesced in the views expressed by Japan, and to enforce that nation's rights under its treaty, commenced an action in the Circuit Court of the United States to enjoin the school board of San Francisco from carrying out the provisions of said resolution. It was allowed in the bill in equity filed therein that the passage of this resolution violated the treaty between Japan and this country, and prevented the United States from carrying out its treaty obligations to the empire of Japan and to its citizens and subjects, as is the right and duty of the United States, and imperatively demanded by the national interests.

This action was never tried, but was dismissed on the withdrawal by the school board of San Francisco of the resolution complained of.

Every one supposed that this vexed question was settled. In fact, the people of the State had about forgotten it, and were no longer paying much attention to it until the bill under consideration was introduced in the Assembly. There has been no general demand for such legislation; there is no immediate or present danger to our schools, and no bad influence exists therein, by reason of the attendance of any Japanese pupil so far as is known. In fact, there are but very few Japanese pupils attending our public schools, and there is no occasion, at present at least, for any unnecessary alarm.

It is claimed by Japan, and admitted by the authorities in Washington, that the bill, if passed, will be in violation of the treaty existing between the two governments. Without expressing any opinion upon this subject, it being a debatable one, I wish to call your attention to the views of Japan, and conceded so far by our Government to be correct. There is contained in the present treaty with Japan the following language, to wit: "In whatever relates to rights of residence and travel \* \* \* the citizens or subjects of each contracting party shall enjoy in the territories of the other the same privileges, liberties, and rights \* \* \* of the most favored nation."

The rights of residence in a nation secure police protection to both person and property, the right to engage in business, the right to the protection of the courts and the laws of the land, the right to own and dispose of property; the right to attend places of public amusement, the right to seek pleasure and enjoyment, and the right to acquire an education.

By our Constitution and laws, the State of California has provided a free public school system where certain privileges have been provided for all resident children, native born and aliens. To support this school system, money is raised by taxation levied upon the property of both citizens and aliens. The law also provides for the compulsory attendance of all resident children, whether of aliens or citizens. To our public schools are admitted the children of a subject of all European nations. This is a great privilege which our State extends to them. This right is given to them by virtue of their residence within the State, and is part of our public policy to encourage education and to improve and develop the minds and character of those who make their homes here, independent of their citizenship.

Japan, under its treaty, being one of the favored nations, and being jealous of the rights of its citizens, claims for them and their children the same rights and privileges as are accorded to the subjects of other favored nations. This claim our Government recognizes and stands ready to enforce. If the treaty, as claimed, guarantees to Japanese children the rights and privileges accorded to the children of aliens of other nations then those rights and privileges, so long as the treaty remains, should be observed, and if our morals and citizenship are to be endangered thereby, then the treaty, so far as it guarantees that right, should be annulled by the General Government, as this State has no power to do so. While the treaty with Japan does not, and can not, require a State to establish or maintain a system of public schools, or to admit alien residents therein, yet it is contended by the authorities in Washington that the United States can, by treaty, assure to the resident citizens of that nation a treatment and enjoyment of rights and privileges equal to those afforded to the citizens of any other foreign nation, and if a State should see fit to extend privileges to alien residents, as well as to citizen residents, the State will not be allowed to discriminate against the citizens of that country with which the treaty has been made. If the State grants certain privileges to the citizens of one foreign country, it can not deny them to the citizens of another, having the same rights by treaty.

It is further contended that if a State chooses to supply education, as a governmental function, it can not discriminate by excluding from its public schools the alien children of any particular nation enjoying treaty rights. In speaking of the action of the school board of San Francisco, Secretary Root said: "No State can set up its laws as against the grant of any particular right, privilege or immunity, any more than against the grant of any other right, privilege or immunity. No State can say a treaty may grant to alien residents equality of treatment as to property, but not as to education." "There were questions of policy, questions of national interest and State interest arising under the administration of the treaty, and regarding the application of this provision to the conditions existing on the Pacific coast." "The best interest of the whole country is always the true interest of every State and city, and the protection of the interests of every locality in the country is always the true interest of the nation."

These words are strikingly true, and the wisdom of them should be observed and considered by you in your deliberation.

I trust that no action will be taken which will violate any treaty made by our country or in any manner question its good faith. I most respectfully submit this message to you, with the full hope and belief that when final action shall be taken, that nothing will be done which can be the subject of criticism by the people of this nation, and that no law will be enacted which would be in contravention of the Constitution or any treaty of the United States

J. N. GILLETT, Governor.

## RESOLUTION.

The following resolution was offered:

By Mr. Transue:

WHEREAS, Assembly Bill No. 14, introduced by Mr. Johnson of Sacramento, and reading as follows:

An Act to amend Section 1662 of the Political Code.

*The people of the State of California, represented in Senate and Assembly, do enact as follows:*

SECTION 1. Section 1662 of the Political Code is hereby amended so as to read as follows:

1662 Every school, unless otherwise provided by law, must be open for the admission of all children between six and twenty-one years of age residing in the district, and the board of school trustees, or city board of education, have power to admit adults and children not residing in the district, whenever good reasons exist therefor. Trustees shall have the power to exclude children of filthy or vicious habits, or children suffering from contagious or infectious diseases, and also to establish separate schools for Indian children and for children of Mongolian, or Japanese, or Chinese descent. When such separate schools are established, Indian, Chinese, Japanese or Mongolian children must not be admitted into any other school; *provided*, that in cities and towns in which the kindergarten has been adopted or may hereafter be adopted as part of the public primary schools, children may be admitted to such kindergarten classes at the age of four years; *and provided further*, that in cities or school districts in which separate classes have been or may hereafter be established, for the instruction of the deaf, children may be admitted to such classes at the age of three years.

Is now pending before this Assembly; and

WHEREAS, It has been represented by the President of the United States that the passage of this bill will, in some manner undisclosed, disturb the relations now existing between the government of the United States and the government of Japan; and

WHEREAS, The President of the United States has made known to this Assembly, through the Governor of this State and through the Speaker of this Assembly, his wish that said bill be not passed; and

WHEREAS, The President of the United States has caused it to be represented to this body that it is his judgment that said bill would conflict with the treaty now existing between the government of the United States and the government of Japan, and because of such conflict the passage of such bill would be beyond the power of the Legislature of this State; and

WHEREAS, The Governor of this State and the Speaker of this Assembly have conveyed to this body their desire that this bill be not passed; and

WHEREAS, It is the desire of this body to accede to the wishes of the Chief Executive of this State, and the Speaker of this Assembly; therefore, be it

*Resolved*, That it is fitting and proper that a statement of the position of this Assembly upon this question be made, to the end that a mistaken impression do not result from the failure of the Assembly to pass this bill; be it further

*Resolved*, That such position is as follows:

1. The school system of the State of California is an institution of the State alone, maintained, supported, conducted and controlled wholly under and in accordance with the powers reserved to the State.

2. That the power to maintain, conduct and control the State school system has not been granted to the Federal Government.

3. That the Legislature of California may properly pass any law relative to the school system of this State that in its judgment may seem best.

4. That by said Assembly Bill No. 14 it is not designed to deprive children of Indian, Mongolian, Chinese, or Japanese descent of equal school privileges and opportunities, but, on the contrary, to these there shall be given, and for these there shall be provided, the same privileges and opportunities as are given to and provided for all other children.

5. That Assembly Bill No. 14 contemplates the establishment and maintenance of separate schools for different races, but all schools so established and maintained shall afford equal and the same facilities for instruction.

6. That this Assembly recognizes it to be a duty resting upon the State to furnish to children of Indian, Mongolian, Chinese, or Japanese descent the same facilities and opportunities as are furnished to children of other races, and affirm that no more can be required and that nothing different is contemplated by said Act. That said Act gives to children of Indian, Mongolian, Chinese, or Japanese descent who are subjects of other countries the same rights and privileges as are given to native born citizens of California, and no power has the right to demand more. That this Assembly is disposed to accede to the wishes of the Federal Government, as conveyed to us by the Governor of this State and the Speaker of this Assembly, but while doing so we reaffirm and reassert that the subject-matter of Assembly Bill No. 14 is purely and exclusively a matter of State concern, falling within the reserve powers of the State, and violates no provision of the Federal Constitution.

7. That it is the judgment of this Assembly that said bill does not conflict with the treaty existing between the government of the United States and the government of

Japan, and that we recognize the authority to make treaties is by the Federal Constitution, vested in the President and Senate of the United States; we affirm that the right to administer our State school system can not be controlled by treaty made by the President and the Senate of the United States, nor by action of the President alone.

8 And finally, while we recognize that Assembly Bill No. 14 is drawn and could be passed by the Legislature of this State in full conformity with the powers reserved to the State and vouchsafed to it by the Federal Constitution, we are unwilling to do aught which may disturb the relations existing between this Government and a friendly power, and for this reason alone, we recommend that Assembly Bill No. 14 be reconsidered and withdrawn.
